LOADSURE

Insurance. Simplified.

Loadsure can help bring additional value to your transportation platform by offering a fully integrated insurance product. This service would allows the user to instantly purchase an "All Risk" cargo insurance policy at the individual load level, applying insurance that pays first, only for those specific shipments that need it.

Loadsure is a full-service insurance solution that handles every step of the process; from on- boarding, risk assessment, underwriting, policy management, payments, digital claims handling, sales and support; all focused on providing a great customer experience.

Coverage is offered across the United States and Canada with "All Risk" cargo insurance in accordance with the Institute Cargo Clauses (A), with few exclusions.

Standard carrier liability coverage requires the carrier to be negligent to honor a claim. In most cases you are not covered for Acts of God, loading and unloading damage, or unattended vehicle. Loadsure covers these common perils and more, paying first, with a cost-effective flat premium per truckload. All claims are settled fast, often within hours, by utilizing a unique digital solution for claims reporting and management.

KEY PRODUCT FEATURES:
