### One Turnkey Solution

Our proprietary integration platform streamlines the most complex integration cases in one turnkey solution, taking the burden off your IT team.

### Ease of Implementation

Easily connect ERP/WMS/TMS and other 3rd Party technology platforms without the reliance on internal IT resources. Even Legacy AS400 Systems!

### Pre-Built Carrier Network

One click out of the box access to hundreds of carriers with drag and drop functionality that delivers speed, security and scalability.

### Data Visibility

Leverage the power of Cloud Computing to provide end to end visibility of the Supply Chain regardless of system.

### Protect Your Past & Future Investments

Ability to use of all of your tech investments in a seamless interface, eliminating sole reliance on legacy tech with a clear path to stop accumulating legacy technology debt.

## ANY DATA, ANY PROTOCOL

Ready to handle the most complex business cases in the world of enterprise integration. Are you having problems processing XML, JSON, EDI or TXT? Seeing constant errors sending data over HTTP, FTP or SOAP?

**RedwoodConnect can send and receive any text based data format using your protocol of choice.**
