

With TriumphPay and HubTran, Your Carriers Can Submit their Paperwork and Get Paid Same-Day.

Did you know?

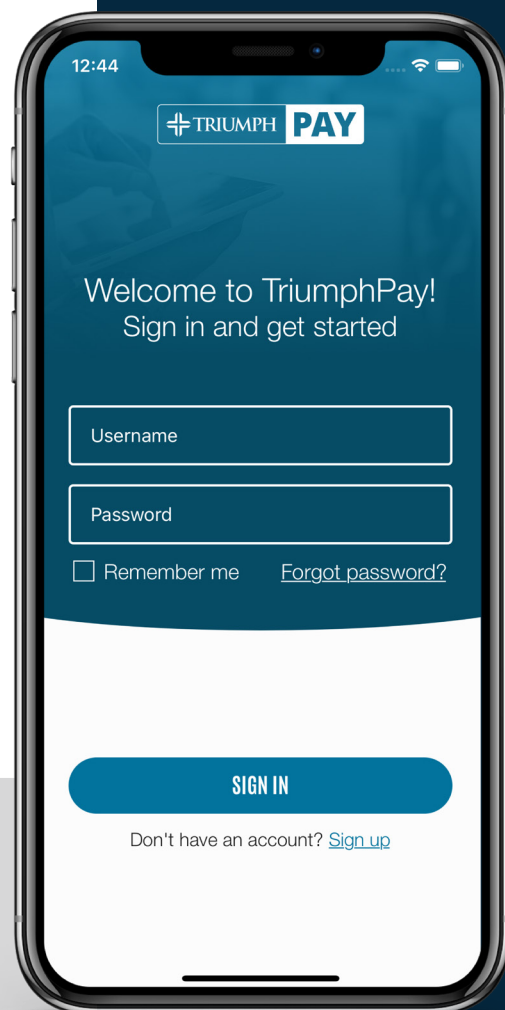

The free TriumphPay mobile app and innovative HubTran technology work together to deliver and review your load paperwork within minutes so you can pay your carriers fast.

How it works:

1. Carriers simply scan and submit paperwork from anywhere on the road using the TriumphPay mobile app.
2. HubTran's OCR technology reads load documents and matches the charges to your TMS.
3. Paperwork is sorted first by *QuickPay*, so you can prioritize carriers' documents and approve them that day.
4. Upon paperwork approval, invoices are sent from your TMS to TriumphPay so your carriers are paid by 4pm CST.

Why have your carriers wait to get paid?

TriumphPay and HubTran brokers offer a 3% or less *QuickPay* rate with same-day payments. Take advantage of the TriumphPay and HubTran technology to pay your carriers fast.

TriumphPay

TriumphPay is the first payments network in transportation. We provide frictionless presentment, settlement, and payment experiences for brokers and carriers. As a leading provider of carrier payment solutions to the supply chain industry, TriumphPay provides the tools and services to increase automation, mitigate fraud, create back-office efficiency and improve the carrier experience. Since its inception, TriumphPay has paid more than 115,000 distinct carriers on behalf of its freight brokers and shippers.

HubTran

HubTran has sparked a back-office revolution by replacing old-school systems with automation to process invoices, bill customers, and manage documents efficiently. The company does it with enterprise-grade software using optical character recognition and artificial intelligence that's smart, easy, and affordable. HubTran brokers work four times faster with better cash flow and incredible accuracy.

Carrier Benefits
