UNPARALLELED OPERATIONAL ACCOUNTABILITY

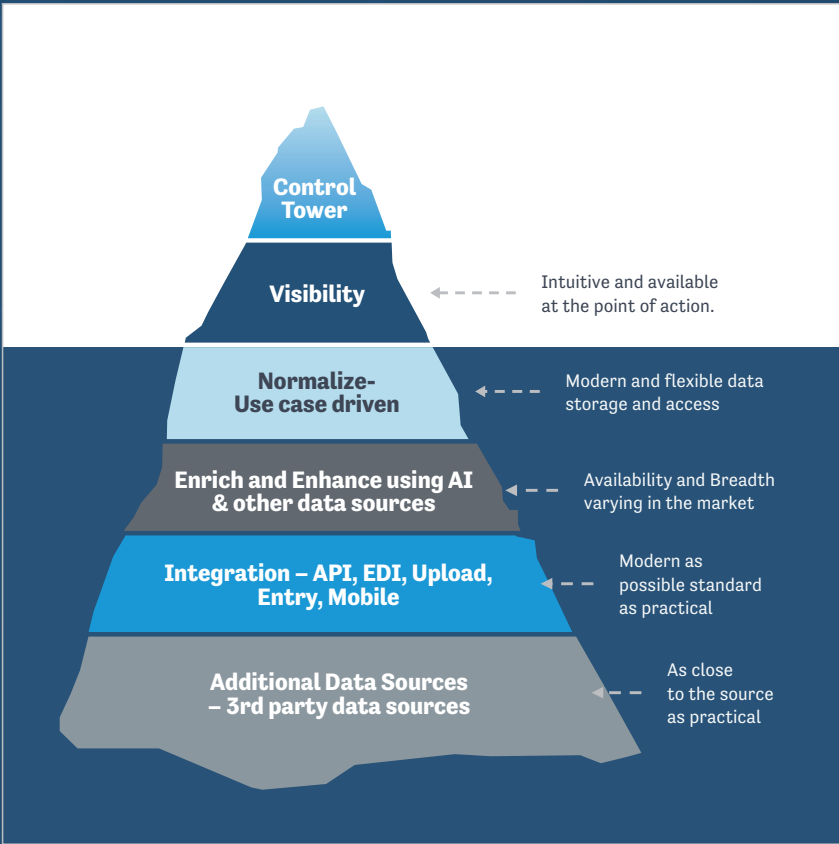

Our design and usability ensure real-time, always-on visibility for every transaction, ensuring form meets function and results match demand.

VISIBILITY TOOLS FOR THE FUTURE

Unparalleled operational
accountability from top
to bottom.

Our design and usability ensures
real-time, always-on visibility for every
transaction, ensuring form meets
function and results match demand.

SUSTAINABILITY EFFORTS

As a SmartWay Transport Partner with the U.S. Environmental Protection Agency, we are committed to creating solutions that attract quality capacity, reduce costs, increase loaded mileage, improve utilization of assets and consume less fuel.

Since 2019, we Koch Industries companies have earned over 1,300 awards for safety, environmental excellence, community stewardship, innovation and customer service.

For a continued commitment to improving practices in intermodal shipping, load capacity and backhauls KBX Logistics have been awarded the EPA SmartWay Excellence Award once again in 2020 giving us back to back awards since 2019.

Loadshop.

Loadshop connects shippers and carriers, allowing you to deliver with transparency. This puts us on top of our game, as this, along with TMS, power our operational superiority.

- Shipper-set pricing
- Integrates directly with any TMS provider via API/EDI
- No added costs via middlemen
- Real-time booking rates
- Data-driven machine learning to provide spot pricing guidance
