

CF - FIBER SPLICE TRAYS

Connect Fortress: Aluminum Fiber Splice Trays

Fiber aluminum splice trays are designed to secure, organize and store spliced fibers. There are 3 different sizes available. The 7" tray holds up to 12 loose tube fusion or 144 Ribbon fusion splice fibers. The 8.75" and 10" trays hold up to 24 loose tube fusion or 144 Ribbon fusion splice fibers. The 5" width of the trays ensures adequate bend radius at all wavelengths. All trays come with cable ties to secure the buffer tubes to the tray and the appropriate style and quantity of splice sleeves.

Features and Benefits
