

TOUCHLESS HAND SANITIZER DISPENSER

Overview

Connect's Hand Sanitizer Dispenser is a touchless system that dispenses a set amount of product automatically, eliminating both waste and reducing the spread of germs. The dispenser has a refillable tank that will hold up to 600ml of hand sanitizing gel eliminating the need for cartridges. The unit is powered by four AA batteries offering truly flexible placement options.

When combined with the available stand the unit becomes a portable, freestanding station with a wide metal base for added stability.

Features

- Touch-less delivery – reduces the spread of germs
- Powered by 4 x AA batteries – no electrical connection required
- Large Refillable 600ml capacity – no cartridges required
- Portable freestanding station – can be placed anywhere
