## **TraceSafe Investment Airbeam Pursues New Path to Go Public**

**March 15, 2021: Vancouver, BC – Tracesafe Inc. (“TraceSafe”) (CSE: TSF)**, a global leader in wearable safety tech and connected workforce solutions, including large-scale enterprise, venue management and asset tracking, is providing an update on its investment in [Airbeam Wireless Technologies Inc.](#) (“Airbeam”). Airbeam [announced](#) it has terminated the previously announced Amalgamation Agreement with First Responder Technologies Inc. (“First Responder”).

Airbeam has signed a full mutual release with First Responder related to the agreement and intends to immediately pursue an alternative go-public arrangement. With a combined volume of over \$130 billion, according to Kathleen Smith from Renaissance Capital, the market for technology IPOs and SPACs is strong in Canada and the United States.

Airbeam’s world-class management team and advisors are set to update Airbeam shareholders in the immediate future on next steps. TraceSafe is confident that the new direction will not have a material impact on the timeline for monetization of the Airbeam investment.

### **About Airbeam**

Airbeam is an innovator in 5G-enabled Smart City technologies. The company sells a proprietary 60 GHz millimeter wave chipset, hardware, and software that power its Edge Computing Network (ECU). Airbeam acquired its technology from a leading semiconductor company, which spent in excess of \$110 million USD on R&D.

### **About TraceSafe**

TraceSafe is a full suite of real-time location management services and contact tracing solutions enabled through advanced low power bluetooth beacons and enterprise cloud management. TraceSafe’s leading cloud management solution ensures both user privacy and comprehensive administrative control. TraceSafe’s patented contact tracing bracelet has already been deployed in mission critical quarantine applications around the world in partnership with leading governments. In addition to their government work, TraceSafe is developing leading edge solutions for Enterprise, Healthcare, Education, Government and large-scale venue management.
