

Data scientist

Are you looking for a new challenge and engage in a highly motivating project? Are you ready to join a team of entrepreneurial and passionate people? Join us in an exciting adventure aiming to disrupt traditional event platforms and ticketing distribution.

We are looking for an energetic and motivated **Data Scientist** interested in having a high impact role in a **startup**.

The job will take place in our **office in Lausanne (CH)**. The salary will be discussed during interviews and the position is open from **June 2022**.

About the company

Smeetz is the #1 data-driven ticketing and dynamic pricing SaaS for attractions and cultural venues to optimize revenue and occupancy.

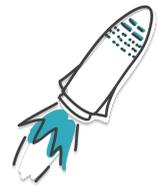

With Smeetz, we provide our customers with an all-in-one solution to manage, market, and price their products efficiently by leveraging data and approaching sales from a tech-savvy perspective.

Smeetz was founded 5 years ago in Switzerland, and since then we have expanded considerably and are now looking to grow internationally. The company is composed of more than 50 team members, some at our head office in Switzerland and some based remotely across their target market countries.

About the role

We are looking for a data scientist with strong NLP and forecasting knowledge. Routine is not part of our daily life at Smeetz. In a day, your responsibilities can go from creating some sales forecasting to implementing a solution in the backend/frontend.

- Work on dynamic pricing model and get new ideas to improve it
- Build accurate forecasting for customers
- Analyze data coming from dynamic pricing and find insights
- Build some visualization to display to our customers
- Create a smart booking flow
- Improve our sentiment analysis model

- Create new dashboards with insightful plots for our clients
- Maintain the dashboards, ensuring data shown is correct
- Work in collaboration with Key Account Managers to take care of client requests and provide good knowledge about our dashboards.
- Maintain the datasets we are using to be sure our data is still relevant

What you offer

- You are a data enthusiast and feel comfortable working in a multidisciplinary team
- You are dynamic and proactive, with an exceptional sense of responsibility, excellent organizational skills and capable of working autonomously while ensuring successful teamwork.
- You have time management skills to get the most out of every single day. Strong ability to prioritize, handle pressure and meet deadlines.
- You are an optimist, resilient and perseverant. Team-player and proactive mindset.
- You have a higher education degree related to Data Science (Master mandatory)
- You have at least one year of experience and already worked in startup
- Good knowledge in Python (PHP and Javascript are a plus)
- Good knowledge of Machine Learning techniques (NLP and Forecasting is a must)
- Very good with data visualization (knowledge of Quicksight is a plus)
- Good knowledge of MLops on AWS is a must to deploy our ML models on the Cloud.

We are looking forward to hearing from you!
The Smeetz Team.
