"Keeping Seniors Connected With Their Community"

REACH LOCAL SENIORS WHO LIVE IN YOUR BUSINESS COMMUNITY

 **SeniorCenters.com** hosts webpages for Senior Centers to help their members stay informed of activities, games, exercise classes and many other community events. On the homepage of each Senior Center viewers will see a picture of the Senior Center, contact information and Google Map with the location.

We feature a select few local businesses and professionals who wish to help support the Senior Center listing and increase their business as well. Unlike print media, we provide a full-color business card advertisement with a direct link to your website. Your customers will be able to interact and read all about the products and services you offer, place orders and make appointments.

We have sent this information to you so that you may review and decide if you wish to reach Local Seniors in your area. An Advertising Insertion Order is included along with a proof for your approval.

Should you decide you do not wish to be listed on the Local Senior Centers in your area, please disregard this letter and the Advertising Insertion Order.

THANK YOU FOR YOUR SUPPORT
