Spacekit Design Tool

Click the "Save for Later" button to generate a link that you can use to finish your design at a later time or share with family and friends.

The screenshot displays the Spacekit Design Tool interface. At the top, the brand name "SPACEKIT" is visible. The main area shows a design configuration for a wall panel with a diamond pattern. A modal dialog box is overlaid in the center, titled "Save your design for later?". The dialog contains the text "Just copy and save the link below and come back any time!" and a URL: <https://www.spacekit.co/configurator?mydesign=8fcbad2c0bd1439fb1b5e766bbb29800>. Below the URL is an orange "Copy!" button. The background interface includes a "STEP 1 - PATTERN" section with options like SWIRL, DOTS, HALF MOON, RADIUS, and WEAVE. A "STEP 2 - FINISH" section offers color and grain options such as DARK GRAIN, RED GRAIN, and NATURAL GRAIN. At the bottom left, the price "\$873" and dimensions "353.6 cm x 353.6 cm (139.2 in. x 139.2 in.)" are shown. Two buttons, "ADD TO CART" and "SAVE FOR LATER", are located at the bottom. The "SAVE FOR LATER" button is circled in orange, and an orange arrow points from the modal dialog to it. A mouse cursor is hovering over the "SAVE FOR LATER" button. In the bottom right corner, there is a "Chat" button.
