

TECHNICAL SPECIFICATIONS MODEL # 6SEB-F

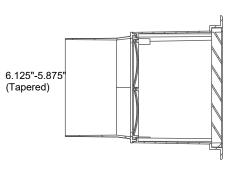

Designed for finished exterior systems such as Flush Precast Exterior

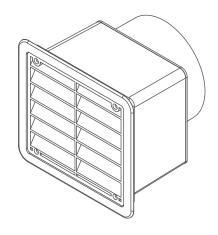

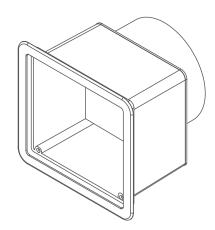

SECTIONAL VIEW

MODEL # 6SEB-F PERFORMANCE DATA

FOR USE

- Bathroom exhaust
- Dryer exhaust
- · Kitchen hood exhaust
- Fresh air make-up

MATERIALS

- · Constructed from high temperature plastic polymers
- · Material tested for use on high temperature appliance devices or components. (max sustainable operational temperature at 235°)
- · All materials are UL compliant to UL723 flame spread rating and ASTM E84 standards
- Devices that require exterior exhaust or intake All components made and fully assembled in the USA

GENERAL INFORMATION

BENEFITS

- Prevents mold & mildew*
- Eliminates water intrusion**
- Sold assembled
- · Single step installation
- Greatly reduces labor cost
- Fits duct sizes (1) 6" diameter duct
- 100% non corrosive material
- · Box cavity designed not to interfere with structural design

FEATURES

- · Prevents exterior air from entering interior area · Interior monolithic cavity, positive pitch sidewalls
 - · Mounted flush with exterior building surface
 - · Paintable, primer required
 - Gravity back draft dampers
 - Removable front louver for periodic maintenance and inspections
 - · Face louver is attached with four stainless steel screws
 - · Impact resistant
 - UV stabilized
 - · Available in White or Custom colors
