

Safe N' Clear Backpack

Providing Ultimate Safety & Lightweight Protection

Higher Ground is concerned with protecting your devices and the safety of your students. Our new heavy-duty "Safe N' Clear" Backpack, makes it easier for security personnel to conduct visual inspections when necessary while also making it easier for students to quickly find their things. The innovative PVC panels (thicker than average models), fabric edge binding/webbing, and reversed zipper all help to increase durability. Higher Ground offers a clear difference, being the **ONLY** clear backpack to include a padded welt with expanded mesh (so it is still see-through) to better protect the case's contents.
