

Customer Function Bootcamp

4h per week / 4 weeks

Why Customer Function?

Theory is just theory until it is applied. This bootcamp prepares CX pros to map the Customer Operating System to their business, design an effective customer-centric organisation and take action to drive customer centricity in their organisation.

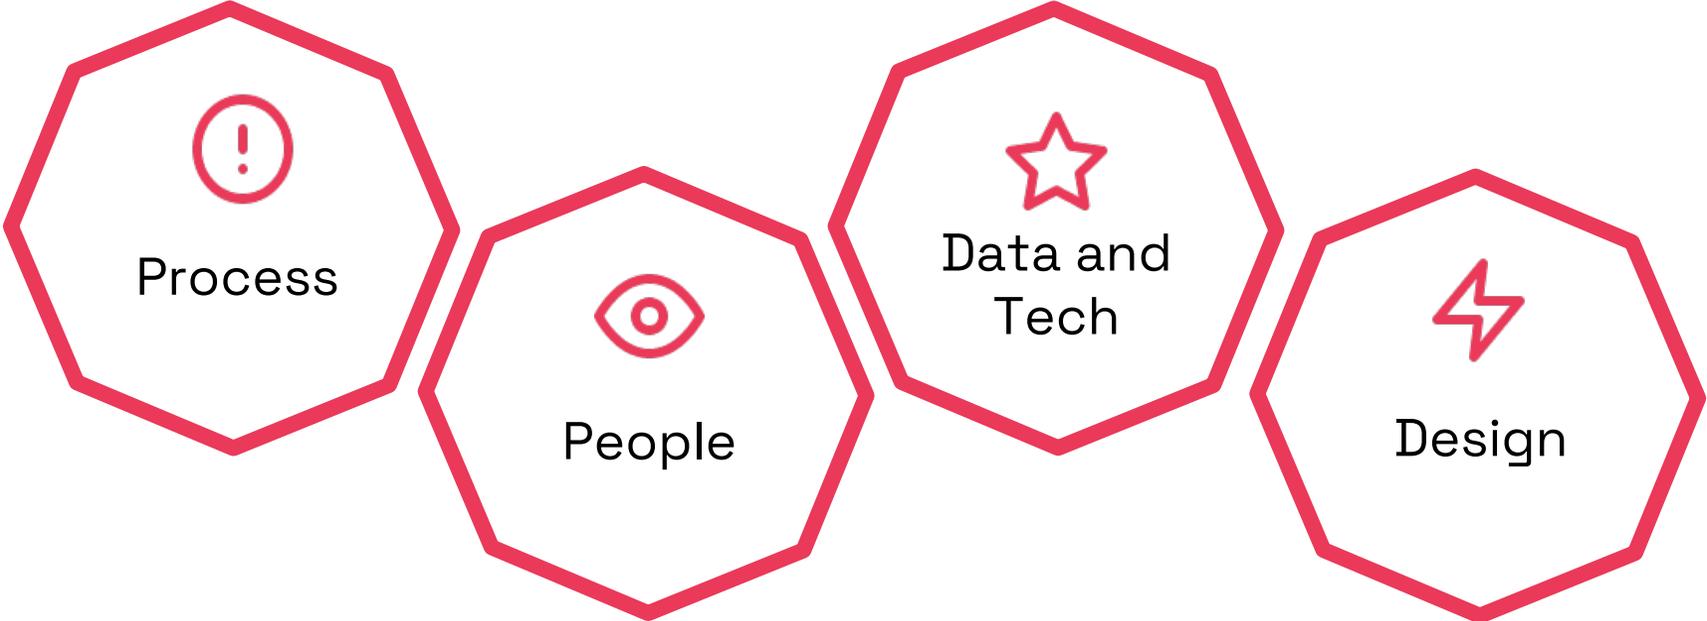

We believe that every customer team can perform like the best customer team, but we know that each customer team is unique. That is why we recognise that the Customer Operating System will need to be "installed" into different organisations in a different way.

This bootcamp will provide learners **with a framework and approach to design team structures, roles and ways of working** that deliver all of the benefits of the Customer Way and Customer OS in a way that suits their own brand. If an organisation aspires to succeed and serve their customers well, the understanding on how people, data, technology and process interacts and work together is essential.

What will you learn?

- Understand the benefits of people, process, data and technology working together to deliver the business outcomes.
- Learn the tools and techniques to design an effective Customer Function that suits your business.
- Learn the data driven decision making in organisational design.
- Understand the Customer Function approach and learn how to map your teams' collaboration to help allocate responsibilities in a way that works.
- Define action plan to build an effective Customer Function.
- Learn to manage stakeholders and communicate effectively.

Stages of the Customer Function Bootcamp

CF Bootcamp schedule

Session 1	Process	Onboarding to PriceCo (your bootcamp employer). Learn the design elements that make up a Customer Function. Then put this into practice.
Session 2	People	Learn how to map your teams' collaboration to help allocate responsibilities in a way that works.
Session 3	Data & Technology	Understand the data that provides an insight about the effectiveness of your function design and how to monitor and adjust it going further. Review and understand the technology that supports your teams and customer experience delivery and define the ways to optimise and enhance it.
Session 4	Design	An action plan in building an effective Customer Function in an organisation.

Fees and learning structure

The full 4 week bootcamp costs **1,100.00 EUR** per person.

This includes:

- 16 hours live sessions with a coach distributed over 4 week period with 4 hour sessions per week.
- Supporting learning kits and resources – each week you should estimate additional 1-2 hours on self study.
- Post bootcamp support and toolkits – you will have access to learning kits 1 year after graduation, as well as access to our coaches and resources to support you in your next career step.

Learning Experience

- A bootcamp is a learning format designed to rapidly build capabilities and practical skills by combining **experiential learning** ('learning by doing') with **expert lectures** ('learning by listening') and **discursive sessions** ('learning by debate').
- This approach facilitates effective learning over shorter periods of time than more traditional learning approaches.
- From the first day of each bootcamp, participants will be part of a team with their boot-campers/ colleagues. This team is based in a fictitious retailer with a detailed business context, rich data sets and demanding customers. Participants will get introduced to this world quickly – getting to know stakeholders, how the business is performing in the market, what customers really think about the brand, and much more.
- Each bootcamp is built around **the flow** which leads learner from understanding the Problem to providing a Solution. But just like in real world, things change quickly and the path to success is never straightforward!
- This approach helps participants develop **problem-solving skills, critical thinking, self-management, flexibility** – and allows them to see **the outcome** of their work to build confidence and experience.

Each bootcamp is structured into:

- 1. Immersion** in real-life business scenarios (c. 60% of all sessions). This is where participants learn the core skills, processes and knowledge required to be capable in a specific CX role.
- 2. ConteXt** (c. 20% of all sessions) One of MadeFor's goals is to get customer teams to work together, and that means that every bootcamp includes sections on how different CX roles collaborate to deliver great results for the customer. This is critical in helping participants become effective in their roles once they get to work.
- 3. Reflection** (c. 20% of total sessions) It is also important to understand *why* and *how* you do things, not just what you do. To do this, each bootcamp has a number of reflection sessions that allow participants to take a step back and change their perspective. These sessions use thought-provoking content and group discussion to help make sure that everyone connects the activities they are learning to do with the outcomes that they will need to achieve.

Ideal Participant

- This bootcamp is suitable for any Customer Experience professional, but most useful to CX leaders and HR managers who want to understand how to upgrade their operating model to become more customer-centric.
- Among your fellow boot-campers you will meet other Customer Experience leaders, managers and professionals who are keen to drive customer-centric organisational design to achieve better results and be future ready.
- Our team can discuss your background and learning goals to advise if this UX bootcamp is a good fit for you.
- All classes are held in English, so you need professional working proficiency level of English.

What to expect

The bootcamp is live event with the team and coach – either on-campus, on-site or online, therefore participants need to be ready to collaborate and interact for ultimate learning experience.

- **KEEP THE PACE.** This is the bootcamp, so it means that we are moving fast through concepts, materials and work. Don't be afraid that you will be left behind if you don't capture something on time – we will make sure to provide additional support or information if required, however make sure to commit to the pace, so your team and yourself can maximise the learning.
- **RESPECT YOUR SCHEDULE.** We all have very busy lives and sometimes it is hard to dedicate the time for learning. We get that! However, if you give your best shot to schedule around the session and actively participate – you are investing in your improvement, which means your team's improvement and your company's improvement. Who can so 'no' to that!
- **KEEP THE FLOW.** Each bootcamp is following a certain process aka flow. In product development it is also called as happy flow – so ideal process on how to follow the bootcamp. We would encourage not to miss the sessions to not 'upset the flow', however if you must, we will provide you with the recording and assignment for you to catch up.
- **FLIPPED CLASSROOM.** At MadeFor we believe that going through factual information and sources & creating notes is not the best time spent as a team. Therefore, we move these activities outside the classroom in a form of e-learning modules, assignments and homework, and use our time together engaging in concepts during the live sessions together with a coach.
- **PREPARE FOR THE SESSIONS.** Have you ever prepared for the meeting, sent out the pre-read deck just to realise during the meeting that no-one has read it? If you can relate to this, let's try to avoid it in our learning experience and schedule time for your assignments. We will provide you with a clear guidance on how much time you will need for each assignment. Don't worry, it will not be excessive and can be fit in your daily work!
- **ENGAGE WITH YOUR TEAM.** As in real life, you can't do it by yourself. Also in the bootcamp you have your team and a lot of work is dependent on how well you manage to work together. Reach out to reflect, provide or receive feedback and get to know each other better. Every connection can lead you to the new opportunities!
- **JOIN THE NETWORKS.** After the bootcamp you have not only gained new connections from your bootcamp team. You have access to much wider alumni network on LinkedIn, you can participate in The Luminary Circle events close to you or even join MadeFor Affiliates. Take a look at our website for more info: <https://madeforcx.com>

The estimated effort: on average 4-6 hours per week for 4 weeks (depends on the bootcamp).

Your Coaches

Niall Lavery
Director

Agnese Spona
Director

MadeFor bootcamps are taught by experts and CX practitioners who have built their skills and knowledge over many years in the field bringing innovation and new thinking to market.

They share their experience during the live sessions as well as make the simulation truly authentic.

Your tools

Zoom is a cloud platform for video and audio conferencing & collaboration. All MadeFor live sessions will be provided via Zoom.

Miro is an online collaborative whiteboard platform. It enables your bootcamp team to communicate and collaborate across formats, tools and channels – without the constraints of physical location, meeting space, and whiteboard.

All MadeFor e-learning modules, including assignments, homework and theoretical modules will be delivered to you via Teachable e-learning platform.

**MadeFor does not have any affiliation with either of the tools.*

You will learn alongside passionate professionals who are keen to learn new ways of doing Customer Function and Customer Experience and keep improving. Just as yourself. Your learning team will not be bigger than **25 people** which means that there will be special focus to make sure that your learning objectives are met.

Your fellow learners

Bundles

At MadeFor we believe that you can learn and apply almost any skill; however, it takes commitment and a clear strategy on how to achieve your objectives.

Therefore, we offer the learning paths that can support you to build your capability and broaden your professional horizon.
