Made For.

Digital Product Management Bootcamp

4h per week / 8 weeks

Table Of Contents

Why DPM?

- Adopting a product mindset to delivering digital solutions is effective: it puts the customer at the heart of design and development, it reduces time to market and it helps to keep up with rapidly changing customer expectations.

- The Digital Product Management bootcamp is designed to build **the core capabilities needed for product owner and product manager roles.** The experiential, scenario-based approach is an ideal opportunity to discover the impact of 'outcome-focused agile'. Participants will explore the full product lifecycle learning the key skills required to go from idea to customer success.

What will you learn?

- Obtain theoretical understanding of varying approaches to product design and management.

- Learn prioritisation in multiple dimensions and complexity.

- Learn to manage the product innovation process.

- Learn to apply Agile methodology in various organisational set-ups of working by understanding 'outcome-focused agile'.

- Learn to manage stakeholders and communicate effectively.

- Learn the context of the DPM role in a business strategy and experience the real-world disruptions while achieving your goal.

- Learn to manage effective meetings.

4 HOURS

8 WEEKS

Learning structure
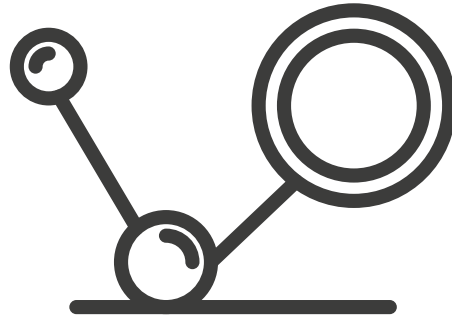

- 32 hours live sessions with a coach distributed over 8 week period with 4 hour sessions per week.

- Supporting learning kits and resources - each week you should estimate additional 1 -2 hours on self study.

- Post bootcamp support and toolkits – you will have access to learning kits 1 year after graduation, as well as access to our coaches and resources to support you in your next career step.

Learning Experience

A bootcamp is a learning format designed to rapidly build capabilities and practical skills by combining **experiential learning** ('learning by doing') with **expert lectures** ('learning by listening') and **discursive sessions** ('learning by debate').

This approach facilitates effective learning over shorter periods of time than more traditional learning approaches.

From the first day of each bootcamp, participants will be part of a team with theirboot-campers/ colleagues. This team is based in a fictitious retailer with a detailed business context, rich data sets and demanding customers. Participants will get introduced to this world quickly – getting to know stakeholders, how the business is performing in the market, what customers really think about the brand, and much more.

Each bootcamp is built around **the flow** which leads learner from understanding the Problem to providing a Solution. But just like in real world, things change quickly and the path to success is never straightforward!

This approach helps participants develop **problem-solving skills, critical thinking, self-management, flexibility** – and allows them to see **the outcome** of their work to build confidence and experience.
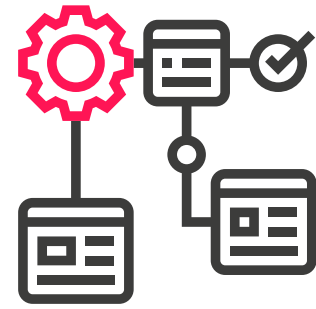

Each bootcamp is structured into:

- **Immersion** in real-life business scenarios (c. 60% of all sessions). This is where participants learn the core skills, processes and knowledge required to be capable in a specific CX role.

- **ConteXt** (c. 20% of all sessions) One of MadeFor's goals is to get customer teams to work together, and that means that every bootcamp includes sections on how different CX roles collaborate to deliver great results for the customer. This is critical in helping participants become effective in their roles once they get to work.

- **Reflection** (c. 20% of total sessions) It is also important to understand **why** and **how** you do things, not just what you do. To do this, each bootcamp has a number of reflection sessions that allow participants to take a step back and change their perspective. These sessions use thoughtprovoking content and group discussion to help make sure that everyone connects the activities they are learning to do with the outcomes that they will need to achieve.

Ideal Participant

- If you want to run digital product project that aligns with your organisation and customer, the Digital Product Management bootcamp is for you. You might have had exposure to product development concepts and even have some of product owner or product manager responsibilities in your current role. In either context this bootcamp will provide an opportunity to experience the product life cycle from problem to a solution.

- Among your fellow bootcampers you will meet product owners, business analysts or product managers, who want to upgrade their skills and become more strategic in their work, as well as professionals from connected Customer Experience disciplines who want to broader their skills and accelerate their performance.

- Our team can discuss your background and learning goals to advise if this DPM bootcamp is a good fit for you.

- All classes are held in English, so you need professional working proficiency level of English.

What to expect
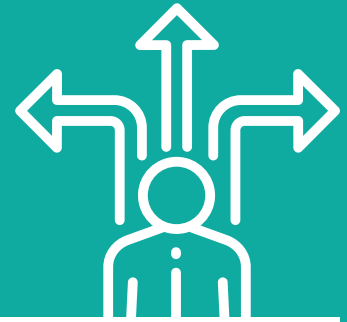

The bootcamp is live event with the team and coach – either on-campus, on-site or online, therefore participants need to be ready to collaborate and interact for ultimate learning experience.

KEEP THE PACE. This is the bootcamp, so it means that we are moving fast through concepts, materials and work. Don't be afraid that you will be left behind if you don't capture something on time – we will make sure to provide additional support or information if required, however make sure to commit to the pace, so your team and yourself can maximise the learning.

RESPECT YOUR SCHEDULE. We all have very busy lives and sometimes it is hard to dedicate the time for learning. We get that! However, if you give your best shot to schedule around the session and actively participate – you are investing in your improvement, which means your team's improvement and your company's improvement. Who can so 'no' to that!

KEEP THE FLOW. Each bootcamp is following a certain process aka flow. In product development it is also called as happy flow – so ideal process on how to follow the bootcamp. We would encourage not to miss the sessions to not 'upset the flow', however if you must, we will provide you with the recording and assignment for you to catch up.

FLIPPED CLASSROOM. At MadeFor we believe that going through factual information and sources & creating notes is not the best time spent as a team. Therefore, we move these activities outside the classroom in a form of e-learning modules, assignments and homework, and use our time together engaging in concepts during the live sessions together with a coach.

PREPARE FOR THE SESSIONS. Have you ever prepared for the meeting, sent out the pre-read deck just to realise during the meeting that no-one has read it? If you can relate to this, let's try to avoid it in our learning experience and schedule time for your assignments. We will provide you with a clear guidance on how much time you will need for each assignment. Don't worry, it will not be excessive and can be fit in your daily work!

ENGAGE WITH YOUR TEAM. As in real life, you can't do it by yourself. Also in the bootcamp you have your team and a lot of work is dependent on how well you manage to work together. Reach out to reflect, provide or receive feedback and get to know each other better. Every connection can lead you to the new opportunities!

JOIN THE NETWORKS. After the bootcamp you have not only gained new connections from your bootcamp team. You have access to much wider alumni network on LinkedIn, you can participate in The Luminary Circle events close to you or even join MadeFor Affiliates. Take a look at our website for more info: **https://www.madeforcx.com/**

The estimated effort: on average 4-6 hours per week for 8 weeks

Your Coaches

Stephan van Rooden

Digital Product Management Bootcamp Coach

in

MadeFor bootcamps are taught by experts and CX practitioners who have built their skills and knowledge over many years in the field bringing innovation and new thinking to market.

They share their experience during the live sessions as well as make the simulation truly authentic.

Your tools

Zoom is a cloud platform for video and audio conferencing & collaboration. All MadeFor live sessions will be provided via Zoom.

Miro is an online collaborative whiteboard platform. It enables your bootcamp team to communicate and collaborate across formats, tools and channels – without the constraints of physical location, meeting space, and whiteboard.

All MadeFor e-learning modules, including assignments, homework and theoretical modules will be delivered to you via **Teachable** e-learning platform.

Jira is a powerful work management tool for all kinds of use cases, from requirements and test case management to agile software development.

* MadeFor does not have any affiliation with either of the tools.

Your fellow learners

You will learn alongside passionate professionals who are keen to learn new ways of doing Digital Product Management and keep improving. Just as yourself.

Your learning team will not be bigger than **25 people** which means that there will be special focus to make sure that your learning objectives are met.

Bundles

At **MadeFor** we believe that you can learn and apply almost any skill; however, it takes commitment and a clear strategy on how to achieve your objectives. Therefore, we offer the learning paths that can support you to build your capability and broaden your professional horizon.

MadeFor toolkit – we got you!

MadeFor toolkit is a collection of valuable resources and tools to help you in your learning journey.

Toolkit includes:

- information about the funding options available at MadeFor

- presentation templates to help you to convince your employer to invest in your education

- useful tips and explanations on how to choose your next step in your career and learning

Visit the toolkit **here**.

Join the affiliate network!
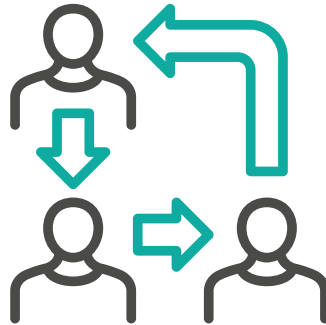

MadeFor's Affiliates is a referral programme consisting of people that actively sell bootcamps to their network and earn commission.

As bootcamp alumni, you can share your experiences and stories to convert listeners in future learners. And you can earn money while doing so.

After application, we always check if there's a match and set you up for success with a short training and support package.

Interested in the opportunity?
