

What is Rapid MedLab?

We provide molecular COVID-19 testing at (3) locations throughout St. Louis. Fast Results. Convenient. Simple.

Can I use Rapid MedLab as my primary physician?

Rapid MedLab is only a testing facility. We don't provide any treatment or medical advice. We recommend you follow up with your physician after your appointment with us.

Will I be charged if I am unable to be reimbursed by my insurance provider?

You will pay in full, and then if desired file a claim with your insurer for reimbursement (we will provide information for you to submit). The amount reimbursed is different depending on your insurance plan. Please contact your insurer for details.

When should I go to Rapid MedLab?

Testing for COVID-19 is important whenever you feel ill with potential COVID symptoms, have been in close contact with someone who tested positive, or would like to know before travel or a gathering.

Do I have to have insurance to receive care at Rapid MedLab?

No. Insurance is not necessary to have a molecular COVID-19 test at any of our facilities.

What information do I need to bring with me?

Please bring a photo ID and your insurance cards.
