

# Six Top Tips for Riding Spin Scooters & Bikes

## Click It Before You Kick It

Always wear a helmet to ride Spin. Is your outfit really complete without one?

## Ride Sober

If you wouldn't drive, you shouldn't ride. Riding while under the influence of drugs or alcohol risks serious injury and may result in a DWI.

## Spin in the Street

You are most visible to drivers when riding in the bike lane or street. Riding over grass, gravel, or the sidewalk edge can cause you to lose control of your scooter or fall. Stay safe, and stay off the sidewalk.

## Stay Clear of Large & Turning Vehicles

Stay back from large vehicles and stay out of blind spots: If you can't see the driver, the driver can't see you. Watch for vehicles entering or exiting driveways or turning in front of you at intersections.

## Obey Local Traffic Laws

Stop at all red lights and stop signs, ride with the flow of traffic, and always yield to pedestrians. One rider per vehicle and riders must be 18+. As a rider, you have the rights and responsibilities of someone driving a car. You are just having more fun.

## Don't Block the 'Walk (When You Park)

When you park your scooter or bike, be mindful of others who may have difficulties with vision or mobility, and avoid blocking sidewalks, access ramps, doorways, and bus stops.
