

# NAP 100

## Compact Size, Expansive Sound

Product EANs: xxxxxxxxxx

The NAP 100 is a classic expression of traditional Naim Audio power amplifier engineering. While its dimensions are conveniently compact – just a mere 20cm wide – its performance is seriously dynamic and expansive.

The NAP 100 is perfect for a number of applications, adding a dose of Naim Audio musicality to a wide variety of systems. Paired with our DAC-V1 digital-to-analogue converter, it becomes the power behind a high-end system to unleash the music from your PC or Mac. Add a UnitiServe to the equation and you create a full hi-fi system that divorces your listening experience from the desktop and allows you complete control from our n-Serve iOS app.

### Key Features

- 50W per channel output into 8 ohms
- Dual mono power amplifier design
- Audiophile grade hand-selected components
- Linear power supply with a large toroidal transformer
- Pair with the DAC-V1 and UnitiServe for compact, high-end music system
