Eligibility, Criteria & Process

Phase 1: Eligibility

In phase one, all applications will be reviewed by our internal team to make sure that all criteria are being met. During the eligibility phase our team will not judge or give a specific score to your application. We will simply make sure that the specific set of criteria are well represented in the deliverables from each applicant.

The criteria for each category includes a checklist and a set of relevant questions which need to be answered within the application and presentation in order to qualify. Please note that applications that do not directly respond to the criteria checklist and application questions and are not written in English will not be eligible to be evaluated by our lead judge and jury panel.

Phase 2: Evaluation from Lead Judge (Criteria & Evaluation Questions)

After our team reviews the applications for eligibility, our lead judge will evaluate all eligible presentations from his / her own category for phase two. According to the criteria checklist and required answers to respective questions, our lead judge will give a score for each application, which will result in the selection of maximum 4 finalists and 1 or more honourable mentions.

Phase 3: Jury Panel & Public Vote

Further evaluation by the whole jury panel will also be based on the set criteria and respective questions, and our wider jury panel will be responsible for nominating the winners of each category, alongside the public vote and the previous scores from each jury member.

Transparent Voting Procedure

Our voting system is based on the combination of different voting power percentages, accounting for: the expertise based evaluation by our lead jury member (35%), a congregate of votes by the jury panel (30%) and a public vote by industry stakeholders and audience through LinkedIn (35%).

The audience vote remains visible for the public to follow throughout the process, however the final results will be disclosed during the awards ceremony.
