BMD

It’s tech for theatre, for everyone.

We’re using the technology in your pocket to break down barriers to the performing arts in schools and communities around the globe. We’re born-and-raised theatre kids, so it’s a part of everything we do. Inspired by innovations in Broadway scenic technology, we created BMD so that theatremakers with any budget can benefit from digital projection to create an incredible production, regardless of venue.

Since 2013, we’ve worked relentlessly to create products that are not only visually stunning and true to the script, but incredibly easy to use – at a cost that’s less than set-building materials or single backdrops, alone.

Because theatre’s for everyone.
