## Upload Any Contract

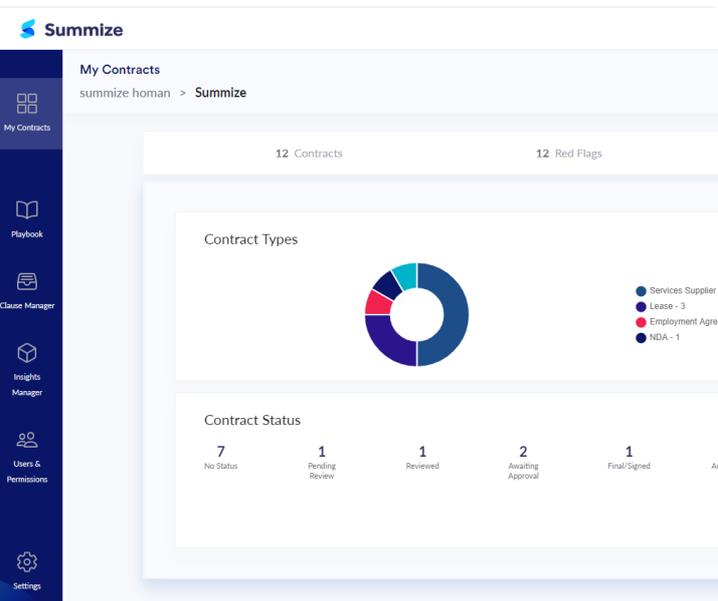

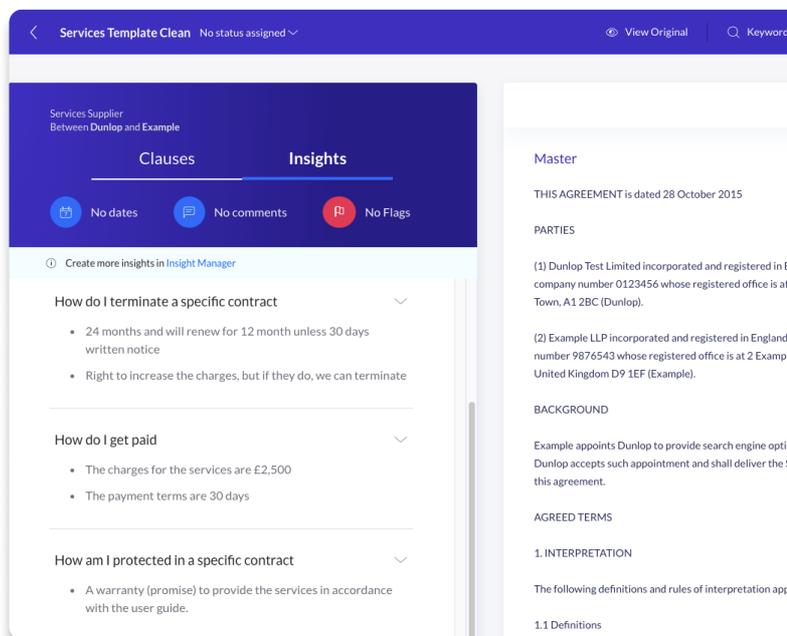

Summize **instantly** creates an easy-to-read summary of any commercial contract - no matter how unique. Whether it's one contract or 1000, Summize finds all the key information.

- ✓ Share and export to clients and business users
- ✓ Reduce the time spent on reviews by 85%
- ✓ Ask questions about your contracts with Contract Insights

## Ideal for Pre and Post-Signature

Our **modular software** makes contract review, creation and management easy for legal teams, wherever they work.

- ✓ Create bespoke clauses with the clause manager
- ✓ Search for and connect clauses across all contracts
- ✓ Set standard positions and precedent texts with the company playbook

## Analyse and Manage

With our reporting dashboard, see vital data about your contracts.

- ✓ Break down contracts into Folders or Clients and see information about location, contract type, and status
- ✓ Identify red flags and key dates
- ✓ Use the Contract Calendar to receive important date reminders

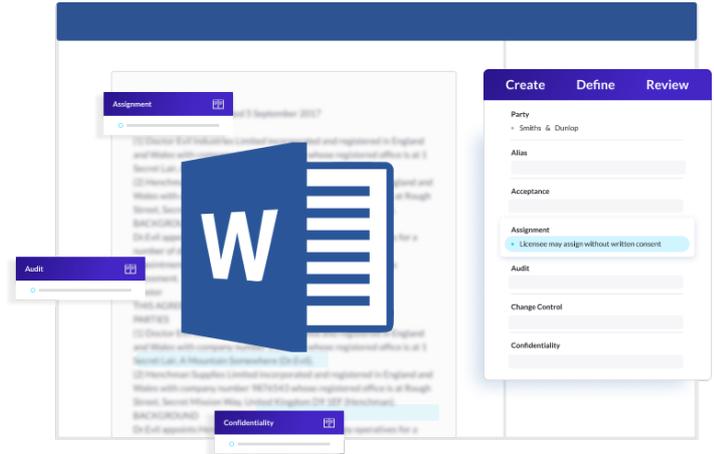

# Supercharge Microsoft Word

With the Microsoft Word Add-In, use Summize's capabilities from creation to negotiation, all without changing where you work.

**Create contracts from scratch** - Add key information as precedent clauses and standard positions while accessing your company playbook.

**Define** - Easily highlight and identify definitions of important terminology throughout your contract.

**Review your contracts easily** - See instant summaries and red flags.

## We Work Where You Do

At Summize, we don't replace the lawyer with technology or demand a change in habits - we compliment them.
