

About this card deck

HOW TO USE THIS DECK

1. Split up your deck into two piles. **Action cards** (gold top bar) and **Body area cards** (black top bar.)
2. Each person takes a turn drawing one action card, and one body part card.
3. With consent, explore that action. Be flexible. Feel free to stick closely to the instructions or take a more free-form approach.

PURPOSE

Experimentation is empowering! Some actions will just feel silly. This deck is meant to open conversations, let you try new moves, and build intimacy between your partner. Enjoy this game, and enjoy each other.

PRINTING

- Pages are structured to be home-printer friendly. Print, cut up, and paste on to the back of an existing card deck.
- No card decks laying around? Stick the sheets onto an old cereal box, and cut out each card.
- Want to re-use over and over? Tape over the pages before cutting with clear packing tape for a faux lamination effect.
