

Warmly,

About Warmly,

Warmly is an of-the-moment connection tool, allowing users to gain context on everyone they encounter in a virtual meeting. Install the app, and gather instant insights on customers, clients, prospects, and teammates right within Zoom.

Features include:

- auto-generated virtual backgrounds
- an extended "about me" section
- list mutual connections on LinkedIn
- opening email history
- phonetic pronunciations and pronouns
- weather and timezone
- "I'm running late" button
- notepad to write reminders about your meetings

Notable investors: NFX, F-Prime, Maven Y Combinator, Sequoia's Mike Vernal, Matchstick Ventures

Honors: Y Combinator, Techstars, Forbes 30 Under 30 - Enterprise Technology

Cost: Free
