

PORT ALBERT TOWNSHIP

PROPOSED DECLARATION

SCHEME No. 1996

SPECIAL CHARGE STREET SCHEME

PROPOSED DECLARATION OF SPECIAL CHARGE

'Port Albert Township Street Construction Scheme Number 1906'

- 1. Wellington Shire Council (*Council*) proposes to declare a Special Charge (*Special Charge* or *Scheme*) under section 163(1) of the *Local Government Act 1989* (*Act*) for the purpose of defraying any expenses or repaying (with interest) any advance made to or any debt incurred or loan to be raised by Council in relation to the preparation, formation and sealing of certain streets and roads in the Township of Port Albert (as those streets and roads are set out in paragraph 2 of this Proposed Declaration and as they are otherwise shown on the plan which is attached to and which forms a part of this Proposed Declaration of Special Charge Scheme Number 1906 (*Scheme Plan*) and the provision of all and any ancillary works, including drainage works and associated table drains, the provision of driveways and driveway culverts (from road edge to building line) and parallel parking in Bay Street on the south side of and adjacent to Rutter Park. The Scheme, if declared, is to be known as the 'Port Albert Street Improvement Scheme Number 1906'.
- 2. The streets and the roads to be constructed are (under Council's Road Management Plan) all designated by Council as (or will become) 'Local Access B' roads and are set out as follows
 - (a) Albany Street;
 - (b) Albert Street;
 - (c) Bay Street;
 - (d) Brisbane Street(part);
 - (e) Colville Street(part);
 - (f) Denison Street(part);
 - (g) Duke Street;
 - (h) King Street;
 - (i) Naiper Street(part);
 - (j) Nelson Street;
 - (k) North Street(part);
 - (I) Oberon Street (part);

- (m) Pier Street;
- (n) Princess Street(part);
- (o) Queen Street(part);
- (p) Raglan Street(part);
- (q) Russell Street(part);
- (r) Spring Street;
- (s) South Street;
- (t) Victoria Street;
- (u) Wellington Street (part);
- (v) West Boundary Road(part);
- (w) Willis Street(part); and
- (x) William Street.
- 3. The criteria which will form the basis of the proposed declaration of the Special Charge are the ownership of rateable properties in the area of the Scheme (being properties within the Township of Port Albert as shown on the Scheme Plan) and, based on the application of access benefit units, including having regard to the driveway access requirements of those properties in the Scheme to the streets and roads to be constructed (as the properties are set out in paragraphs 7 and 8 of this Proposed Declaration), the overall benefits which it is considered the properties in the Scheme (based on the physical and other benefits) will receive from the works to be performed under the Scheme.

- 4. In proposing the declaration of the Special Charge, Council is performing functions and exercising powers in relation to the peace, order and good government of the municipal district of the Shire of Wellington, in particular the provision of proper, safe and suitable roads and property services within the area for which the proposed Special Charge is to be declared (*Works*).
- 5. The total cost of the performance of the function and the exercise of the power by Council (in relation to the Works) is \$2,800,000 and this amount is the total estimated cost of the Works to be undertaken by the Scheme.
- 6. The total amount to be levied under the Scheme as the Special Charge is \$912,600.
- 7. The Special Charge will commence on the date on which it is levied by Council and will remain in force for a period of **5 years**
- **8.** The area for which the proposed Special Charge is to be declared is all the land shown on the plan set out in the Schedule forming a part of this Proposed Declaration of Special Charge (being the Scheme Plan and being **Schedule 1**)
- **9.** The land in relation to which the proposed Special Charge is to be declared is all that rateable land described in the listing of rateable properties set in the Schedule forming a part of this proposed declaration of Special Charge (being **Schedule 2**)
- 10. The proposed Special Charge will be assessed and levied in accordance with the amounts set out alongside each property in the Schedule forming a part of this Proposed Declaration (being Schedule 2), such amounts having been assessed and determined by Council as (and are based on) a fixed charge for each property having regard to access, including and in particular driveway access. Properties which have a shared driveway access to the street to be constructed via common property will have their access benefits calculated on the basis of 100% for the first property and 50% for each additional property (with access being apportioned to each of the properties so as to equal the sum of the percentages divided by the number of properties with common property access), and any other benefits.

(More particularly, the Special Charge is to be apportioned to properties included in the Scheme on the basis of each property having a driveway access to the street to be upgraded under the Scheme being apportioned one (1) Access Benefit Unit (ABU) and properties within an Owners Corporation with a shared driveway access to the street via common property being apportioned an Access Benefit Unit calculated on the basis of 100% for the first property and 50% for each additional property. The Access Benefit Unit is otherwise to be apportioned to each of these properties equalling the sum of the percentages divided by the number of properties with common property access.)

- 11. Subject to any further resolution of Council, the Special Charge will be levied by Council sending a notice in the prescribed form to the owners of the properties in the Scheme by which the Special Charge is to be paid
 - (a) In full amount within 45 days of the notice; or
 - (b) By way of quarterly instalments in the manner set out in paragraph 12.

- **12.** Because the performance of the function and the exercise of the power in respect of which the proposed Special Charge is to be declared and levied relates substantially to the provision of capital works, special ratepayers will be given an instalment plan under which
 - (a) Quarterly instalments are to be paid over a **5 year period**, or other such period as negotiated; and
 - (b) Quarterly instalments will include a component for reasonable interest costs, the total of which will not exceed the estimated borrowing costs of Council in respect of the construction of the Road by more than 1 per cent.
- **13.** Council will consider cases of financial and other hardship, and may consider other payment options for the Special Charge.
- **14.** No incentives will be given for the payment of the Special Charge before the due date for payment.
- 15. Council considers that there will be a special benefit to the persons required to pay the Special Charge because there will be a benefit to those persons over and above, or greater than, the benefit that is available to persons who are not subject to the proposed Special Charge, and directly and indirectly as a result of the expenditure proposed by the Special Charge, the value and the use, occupation and enjoyment of the properties included in the Scheme will be maintained or enhanced through the provision of proper, safe and suitable roads and property services. Without limitation, Council considers that the Works will
 - (a) Reduce dust;
 - (b) Enhance the amenity and character of the land, and local area;
 - (c) Create improved riding surfaces for the roads;
 - (d) Improve access and egress from properties;
 - (e) Improve road drainage;
 - (f) Improve road safety for motorists, cyclists; and
 - (g) Enhance the amenity and liveabilty of the Township of Port Albert.
- 16. For the purposes of having determined the total amount of the Special Charge to be levied under the Scheme, Council further considers and formally determines for the purposes of sections 163(2)(a), (2A) and (2B) of the Act that the estimated proportion of the total benefits of the Scheme to which the performance of the function and the exercise of the power relates (including all special and community benefits) that will accrue as special benefits to all persons who are liable to pay the Special Charge is in a ratio of 0.79 or 79%, noting however that, in the exercise of its discretions, Council has chosen to make a further contribution to the cost of the Works so as to arrive at a Revised Maximum Total Levy Amount of \$912,600.

SCHEDULES TO DECLARATION

PORT ALBERT TOWNSHIP STREET CONSTRUCTION SCHEME SPECIAL CHARGE SCHEME NUMBER 1906

Determination under Sections 163(2)(a), (2A) and (2B) of the *Local Government*Act 1989 – Calculation of Total Amount of Special Charges to be Levied ('Maximum Total Levy')

Introduction

Wellington Shire Council (*Council*) has a legacy of being required to deal with a number of issues associated with sub-standard roads and streets throughout the Shire. A key objective of Council is to renew and improve roads and streets within residential environments with a view to providing proper community infrastructure and improved amenity and liveability, and overall resident satisfaction.

Council has (following a review of its 'Residential Road and Street Construction Plan 2014') adopted the 'Residential Road and Street Construction Plan 2019' (*Plan*). As a strategic policy document, the Plan seeks to provide a sustainable budgetary response to the renewal and improvement of sub-standard roads and streets within residential environments throughout the Shire.

The proposed special charge scheme for the Port Albert Township (to be known as the 'Port Albert Township Street Construction Scheme Number 1906') (*Special Charge* or *Scheme*) is consistent with, and otherwise supports, the Plan.

This determination is made by Council under and for the purposes of sections 163(2)(a), (2A) and (2B) of the *Local Government Act 1989* (*Act*). It addresses the calculation of the 'benefit ratio' in order to determine the total amount of the special charges that may be levied on those property owners who it is considered will receive a benefit from the proposed works through the imposition of the Special Charge ('*Maximum Total Levy*').

The calculation of the Maximum Total Levy requires Council to –

- Calculate the total cost of the works; and
- Calculate the 'benefit ratio' based on reasonable estimates being made of
 - i. The 'total special benefits' to the properties included in the Scheme (TSB (in));
 - ii. The 'total special benefits' to the properties not included in the Scheme (if any) (TSB (out)); and
 - iii. The 'total community benefits' (if any) to be provided by the Scheme (TCB).

A. Define Purpose

The purpose of the Special Charge Scheme is to defray an expense or to repay (with interest) an advance made to or a debt or loan to be raised by Council in connection with the construction, improvement and drainage of specified streets and roads within the Township of Port Albert (collectively, *Streets*).

The Streets are all located within the Township of Port Albert and are otherwise located in a residential area, and currently consist of partially formed (but unsealed) gravel pavements of approximately and variously between 50 m and 600m in length, with irregular table drains. The streets are primarily main rural-type roads (servicing the Township of Port Albert), with unsealed sections extending for the full length of the Streets. The Streets are managed and maintained by Council.

A formal investigation of the proposed Special Charge Scheme was commenced following ongoing property owner concerns and complaints in relation to Council's maintenance grading regime, which had applied to the Streets. The initial work undertaken by Council in response to these concerns included, the preparation of concept designs and an estimate of costs. Property owners were advised that, if implemented, the Scheme would provide for the construction and sealing of the Streets to a 6.0 m width, with barrier kerbing being proposed at bends in the road, and improved drainage and stormwater management, and other improvements.

The construction and sealing of the Streets will reduce Council's need for ongoing maintenance intervention, while providing, in the context and for the benefit of the of the Township overall, a higher level of service for property owners and occupiers, and the general public. Under Council's Road Management Plan, the Streets are designated as 'Local Access B Roads' and (as required by the Plan) 60% or more of property owners have expressed support for the construction and improvement of the Streets.

Consistent with the Plan, it is considered that the 256 rateable properties (being 264 total properties, less 8 non-rateable properties) which it is proposed will be included in the Scheme (and the general public) will benefit from the proposed works in the following ways –

- Improved amenity and liveability for residents and the local community through quality infrastructure and streetscape;
- Removal of dust and health related issues currently experienced in unsealed streets;
- Improved safety for motorists and pedestrians with modern road and path infrastructure, that is less exposed to rapid degradation;
- Decreased maintenance costs incurred by Council, through reduced demand associated with upkeep of poorly constructed roads, streets, drains and paths;
- Increased community satisfaction via the provision of property infrastructure that meets expectations;
- Improved high density development opportunities in existing urban environments.

Following further investigation of potential methods to facilitate the construction works in the Scheme, a further consideration of survey results and further meetings with property owners (who continue to show support for the Scheme), it has been concluded that a Special Charge

Scheme, generally in accordance with and supported by the Plan, is the preferred approach to facilitate the project outcomes.

B. Ensure Coherence

The proposed road and drainage improvement works to be located within the Scheme area will provide a special benefit to the rateable property owners located within the Scheme boundaries, and are otherwise physically connected to the purpose set out in A.

C. Calculate Total Costs

The implementation of the Special Charge is regulated by section 163 of Act. Ministerial Guidelines made pursuant to the Act require Councils to be transparent about how they calculate the 'Maximum Total Levy'.

For this project, the Maximum Total Levy has been calculated in accordance with the Act and the Guidelines. The Maximum Total Levy, and other relevant information, is summarised in the table below.

| Total Scheme Cost | \$2,800,000 |
|-----------------------------------|-------------|
| 'Benefit Ratio' Determination | 0.79 or 79% |
| Maximum Total Levy Amount | \$2,212,000 |
| Further Council Contribution | \$1,299,400 |
| Revised Maximum Total Levy Amount | \$912,600 |

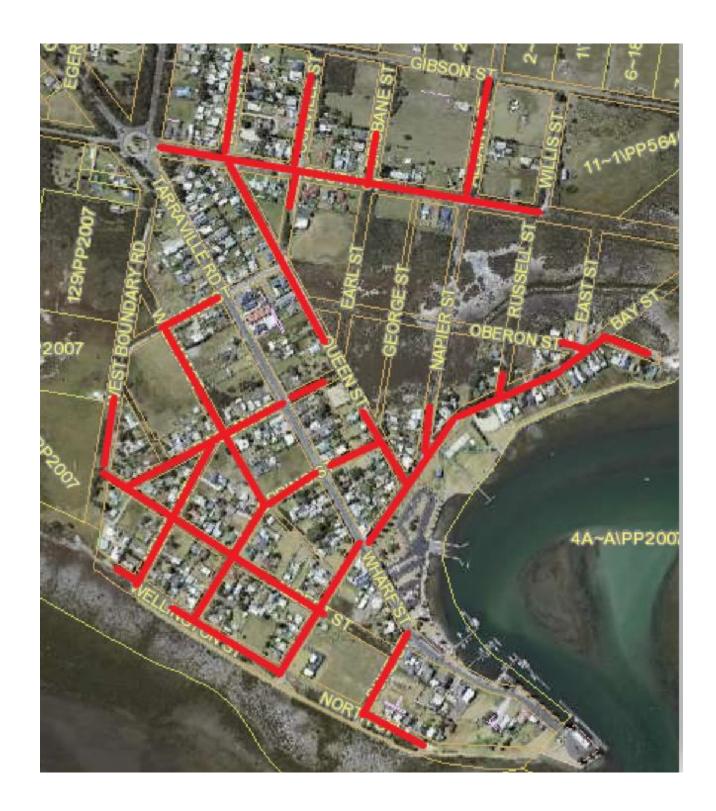

D. Identify Special Beneficiaries

It is considered that all 256 rateable properties in the Scheme (as they are listed in the apportionment spreadsheet) will receive both road- and drainage-related special benefits from the proposed works.

The relevant special benefits which it is considered each property will receive are -

- Reduction in dust:
- Enhancement of the amenity and character of the land and local area;
- Creation of improved riding surfaces for the street;
- Improvement in access and egress from properties;
- Improved road drainage; and
- Improved road safety for motorists and cyclists.

The Scheme area (showing the 256 rateable and chargeable properties and the location of the Streets to be constructed) is shown on the plan below.

E. Determine Properties to Include

For the purposes of calculating the Benefit Ratio, a notional benefit value – to be called a Benefit Unit (BU) – will be used. A BU is a deemed benefit equal to the *average* benefit for each and every property included in the Scheme. This average benefit is considered to comprise *both* access and amenity benefits.

It is considered that that all of the properties included within the Scheme will receive a benefit from the works to be provided under the Scheme (that is, and being 1 BU for each property), regardless (for the purposes of calculating the Benefit Ratio, but not for the purposes of the final distribution of the Special Charge amongst the Special Charge contributors) of whether or not particular properties have subdivision or other development potential (or, in some cases, further subdivision or development potential). The BU so chosen has been broken up equally into both access benefits and amenity benefits (viz., 0.5 BU for 'improved access' and 0.5 BU for 'improved amenity').

F. Estimate Total Special Benefits

Total Special Benefit Units are defined as follows -

Total Special Benefits = Total Special Benefits (in) + Total Special Benefits (Out), that is -

$$(TSB = TSB_{(in)} + TSB_{(out)})$$

TSB (in) has been calculated as follows -

| Total Special Benefit Units In (TSB (in)) | Access (50%) | Amenity (50%) |
|--|--------------------|-------------------|
| Total number of Rateable Properties in Scheme receiving Special Benefit and being required to pay the Special Charge (256) | 0.5 x 256 = 128 BU | 0.5 x 256 = 128BU |
| TSB (in) = | 256 BU | |

There are 8 non-rateable parcels of land in the Scheme (being Council land used for various municipal purposes and a Church). These properties are considered to be receiving a special benefit but are not required to pay the Special Charge.

These properties are referred to as **TSB** (out) properties.

TSB (out) has been calculated as follows -

| Total Special Benefit Units Out (TSB (out)) | Access (50%) | Amenity (50%) |
|--|----------------|---------------|
| Total number of Non-rateable Properties in Scheme receiving Special Benefit and not being required to pay the Special Charge (8) | 0.5 x 8 = 4 BU | 0.5 x 8 = 4BU |
| TSB (out) = | 8 BU | |

G. Estimate Total Community Benefit

In addition to establishing the Total Special Benefits for the Scheme, an assessment of any Community Benefit is also required to be undertaken in order to calculate the Maximum Total Levy.

It is considered that the Community Benefit attributable to the proposed Scheme works will be generated from the broader community receiving some benefits, which benefits (in the interest of fairness and equity) Council should be paying for (and not the Special Charge contributors).

The community benefits are considered to be –

- General improvement in township amenity and liveability;
- General improvement in trafficability of roads serving the Township;
- General improvement in drainage and water quality; and
- Reduced ongoing maintenance costs for Council.

Improved township amenity

The sealing of the roads and the other works to be provided will result in an overall improvement in the amenity and liveability of the Township of Port Albert. Whilst this benefit is very difficult to quantify, it is recommended that **10 BU** be allowed for this benefit, which is however considered to be a general (and possibly marginal) benefit in circumstances where it is otherwise considered that most of the benefits of the works will be received by the abutting properties owners and occupiers, and their visitors.

Improved trafficability of roads

It is anticipated that there will be some wider community benefit attributable to persons who are not accessing or servicing the properties within the Scheme boundary (but who will nevertheless use the roads for wider access purposes).

Despite this, and on the basis that the roads to be improved only service the movement of local traffic within the Township (and do not in any real sense connect into the wider network of public roads for which Council is responsible), the benefits attributable to any broader traffic use of the roads is considered marginal, and generally only occurs during holiday periods.

For this reason, officers have not carried out traffic studies. It is otherwise considered reasonable for Council to rely on, and be guided by, its own estimates based on Council's own local knowledge and experience.

On this basis, it is recommended that an allowance be made for what may be some increase in traffic movements and, accordingly, any projected increase in external traffic will account for the Total Community Benefit, and this will result in the calculation of the following **30 BU's** for any such traffic by the broader community.

Total Community Benefit Units for any broader traffic use of the road is estimated as follows-

$$TCB_{traffic} = 30$$

Improved drainage and water quality

Sealing of the roads will result in improved drainage and better water quality: It is recommended therefore that **10 BU** be allowed for this benefit, which is however considered to be a marginal benefit.

Reduced ongoing maintenance costs

There will be less ongoing maintenance costs for Council in having to care for and manage sealed roads, rather than unsealed roads: It is recommended therefore that **10 BU** be allowed for this benefit, which is considered to be a marginal benefit.

Therefore,

TCB
$$_{total}$$
 = TCB $_{township\ amenity}$ + TCB $_{traffic}$ + TCB $_{drainage}$ + TCB $_{maintenance}$ = 10 + 30 + 10 +10

TCB
$$_{total} = 60$$

It is otherwise noted that the Township is serviced by strip shops along Tarraville Road and Wharf Street, there is one petrol station, one Mechanics Institute (Town Hall) which supports various community activities, a museum, a jetty and a boat ramp. Rutter Park is the main park/public recreation reserve in the Township, and it includes a playground and barbeque facilities, and public toilets. There is a walking track along the foreshore, and a sea wall servicing the Township.

H. Calculating the 'Benefit Ratio'

The Benefit Ratio is calculated as follows -

$$R = \frac{TSB_{(in)}}{TSB_{(in)} + TSB_{(out)} + TCB}$$
$$= 256 / (256 + 8 + 60)$$
$$= 256 / 324$$

Benefit Ratio = 0.79 or 79%

I. Calculating the Maximum Total Levy

The following formula, as set out in the Act, is used to determine the Maximum Total Levy -

$$R \times C = S$$

where -

R is the Benefit Ratio determined by Council;

C is the total Scheme cost; and

S is the Maximum Total Levy

Council may levy up to 79% of total costs, or \$2,212,000

J. Other relevant considerations

Council notes that if it levies the Maximum Total Levy Amount of \$2,212,000 the special charge contributors would be required to pay by way of special charges amounts which exceed the amounts set out in Council's Residential Road and Street Construction Plan 2019¹.

In the exercise of its discretions, and otherwise in accordance with the Plan (and the objectives which the Plan seeks to achieve), Council chooses to allocate a further amount of \$1,299,400 in and towards the cost of the Scheme works, meaning that the Maximum Levy Amount to be charged to the Scheme will be \$912,600 (*Revised Maximum Total Levy Amount*).

The Revised Maximum Total Levy Amount is to be apportioned amongst the property owners within the scheme area in accordance with the method of distribution of the Special Charge to be determined by Council in the declaration of the Special Charge.

¹ Refer to section 6.2 of the Plan by which a fixed rate contribution model of \$3,600 has been proposed and adopted by Council for Small and Coastal Towns where sealed roads are to be provided.

Port Albert Township

Scheme No. 1906 - Special Charge Street Construction Scheme

Notice of Intention to declare a Special Charge for the construction of Port Albert Township Streets

In accordance with a resolution of the Wellington Shire Council (Council) made at its ordinary meeting held on 21 April 2020, notice is given that at the ordinary meeting of the Council to be held on 15 September 2020. It is the intention of the Council to declare a Special Charge (Special Charge or Scheme) under section 163(1) of the Local Government Act 1989 (Act) for the purposes of defraying any expenses or repaying (with interest) any advance made to or debt incurred or loan to be raised by Council in relation to the construction of streets within the Port Albert Township (Street) and for providing all and any necessary ancillary works associated with the construction of the streets, including driveway crossovers. The Scheme, if declared, is to be known as the 'Port Albert Township - Special Charge Street Construction Scheme Number 1906'.

The criteria which will form the basis of the Special Charge are the ownership of rateable properties in the area of the Scheme (being properties within the 'residential area' of Port Albert) and, basec on the application of access benefit units (including having regard to the driveway access of those properties in the Scheme), the overall benefits which it is considered the properties in the Scheme (based on the physical and other benefits) will receiv from the works to be provided under the Scheme.

The Council considers that each rateable property included in the Scheme area that is liable or required to pay the Special Charge will receive a special benefit through the provision of proper, safe and suitable roads and property services. Without limitation, Council considers that the works will –

- Reduce dust;
- Enhance the amenity and character of the land, and local area;
- Create improved riding surfaces for the Road;
- Improve access and egress from properties;
- Improve road drainage; and
- Improve road safety for motorists and cyclists.

In performing functions and exercising powers in relation to the peace, order and good governance of the municipal district of the Shire of Wellington, in particular, the provision of proper, safe and suitable roads and property services in the area for which the proposed Special Charge will be declared, the Council intends to spend an amount of \$2,800,000 being the estimated cost of the works to be undertaken, and to levy by way of the Special Charge an amount of \$912,600.

The Special Charge will commence on the date on which it is levied by Council and will remain in force for a period of 5 years.

For the period of the Scheme, the Special Charge will be assessed by Council as (and the respective charges (being \$3,600 or \$2,250 are based on) a fixed charge for each property having regard to access, including and in particular, driveway access. Properties which have a shared driveway access to the street to be constructed via common property will have their access benefits calculated on the basis of 100% for the first property and 50% for each additional property

(with access being apportioned to each of the properties so as to equal the sum of the percentages divided by the number of properties with common property access), and any other benefits. (More particularly, the Special Charge is to be apportioned to properties included in the Scheme on the basis of each property having a driveway access to the street to be upgraded under the Scheme being apportioned one (1) Access Benefit Unit (ABU) and properties within an Owners Corporation with a shared driveway access to the street via common property being apportioned an ABU calculated on the basis of 100% for the first property and 50% for each additional property. The ABU is otherwise to be apportioned to each of these properties equaling the sum of the percentages divided by the number of properties with common property access.)

Subject to any further resolution of Council, the Special Charge will be levied by Council sending a notice in the prescribed form to the owners of the properties in the Scheme by which the Special Charge is to be paid –

- a) In full amount within 45 days of the notice; or
- b) By way of quarterly instalments in the manner set out below.

Because the performance of the function and the exercise of the power in respect of which the Special Charge is to be declared and levied relates substantially to capital works, special ratepayers will be given an instalment plan under which –

- a) Quarterly instalments are to be paid over a 5 year period, or other such period as negotiated; and
- b) Quarterly instalments will include a component for reasonable interest costs, the total of which will not exceed the estimated borrowing costs of Council in respect of the construction of the Road by more than 1 per cent.

Council will consider cases of financial and other hardship, and may consider other payment options for the Special Charge. There will be no incentives given for payment of the Special Charge before the due dates for payment.

For the purposes of having determined the total amount of the Special Charge to be levied under the Scheme, the Council considers and formally determines for the purposes of sections 163(2)(a), (2A) and (2B) of the Act that the estimated proportion of the total benefits of the Scheme to which the performance of the function and the exercise of the power relates (including all special benefits and community benefits) that will accrue as special benefits to all of the persons who are liable to pay the Special Charge is in a ratio of 0.79 or 79%. This is also on the basis that, in the exercise of its discretions, Council has chosen to make a further contribution to the cost of the works so as to arrive at a revised maximum total levy amount of \$912,600.

Copies of the proposed declaration of the Special Charge and a detailed plan of the Scheme area are available for inspection at the Wellington Shire Council Offices, 18 Desailly Street, Sale 3850 during normal business hours for a period of at least 28 days after the date of the publication of this notice.

Any person may make a written submission to the Council under sections 163A and 223 of the Act. In addition, any person who will be required to pay the Special Charge to be imposed by the proposed declaration has a right to object to the proposed declaration and may also make a written objection to the Council under section 163B of the Act.

Written submissions to be submitted to the Council under section 223 of the Act and/or written objections to be lodged with the Council under section 163B of the Act must be received by the Council by 5pm on 29 May 2020. Submissions and/or objections must be in writing and addressed and sent by mail to the Chief Executive Officer, Wellington Shire Council, PO Box 506, Sale VIC 3850.

Any person who has made a written submission under section 223 of the Act and has requested to be heard in support of their written submission is entitled to appear in person or be represented by a person specified in the submission before a Committee appointed by the Council to hear submissions under section 223 of the Act, the day, time and place of which will be advised in writing.

Any person making a written submission under section 223 of the Act is advised that the Council is no longer required to make available for public inspection submissions received in accordance with section 223 of the Act. Accordingly, all submissions will be handled as authorised or required by law, including under the Privacy and Data Protection Act 2014, and submissions and/or objections may, as Council sees fit, become available for public inspection.

. Council will consider any written submissions and take into account any objections in accordance with sections 163A, 163B and 223 of the Act.

Any person requiring further information concerning the proposed declaration of the Special Charge should in the first instance contact Tilo Junge on telephone 1300 366 244 or 5142 3217 or email tilo.junge@wellington.vic.gov.au
