OVERVIEW

To establish policy for the provision of motor vehicles for Councillors.

THE POLICY

This document details Wellington Shire Council's policy for the provision of motor vehicles for Councillors during their term of office as a Councillor. Usage of any provided Council motor vehicle will be in accordance with Council's Fleet Guidelines.

Where the annual cost for the provision of a motor vehicle is determined to be less than the expense for reimbursement of approved individual motor vehicle usage for a Councillor when undertaking Council business, then Council will provide a motor vehicle to that Councillor for his/her term of office if so requested by the Councillor. The Council will provide a dedicated motor vehicle to the Mayor for use during the conduct of Council business and for private use within Victoria.

The vehicle provided will be determined by the General Manager Corporate Services in consultation with the individual Councillor. The vehicle will meet Council's fleet environmental requirements, as set out in the Fleet Guidelines. Safety and new technologies will be considered when determining the type of vehicles that best suit the needs of the individual Councillor. Consideration will also be given to achieving a reduction in fuel consumption and emissions.

The type of vehicle provided will be approved by the Chief Executive Officer and will generally be a 4-cylinder sedan or SUV at a modest cost base. Preference will be given to Australian manufactured vehicles where possible.

If a Councillor's personal circumstances change during the term of office such that the original assessment of Council business related travel may change, then a review of the expected travel costs will be undertaken to determine the appropriateness of the provision of a motor vehicle in accordance with this policy.
