

DRIVER CENTER *FEATURES*

BADGES - These icons show how your driver compares to your company's standards.

BEAT THE FLEET PATCH

This patch is awarded for each week you beat the fleet average in a calendar year.

TARGET PATCH

This patch is awarded for each week you meet the company speeding target in a calendar year.

BEAT THE FLEET STREAK

This patch indicates the number of weeks in a row that you have beat the fleet average.

TARGET STREAK

This patch indicates the number of weeks in a row that you have met the target.

CURRENT SPEEDING

This displays your average weekly speeding percentage.

A green dot indicates that you have met the fleet target.

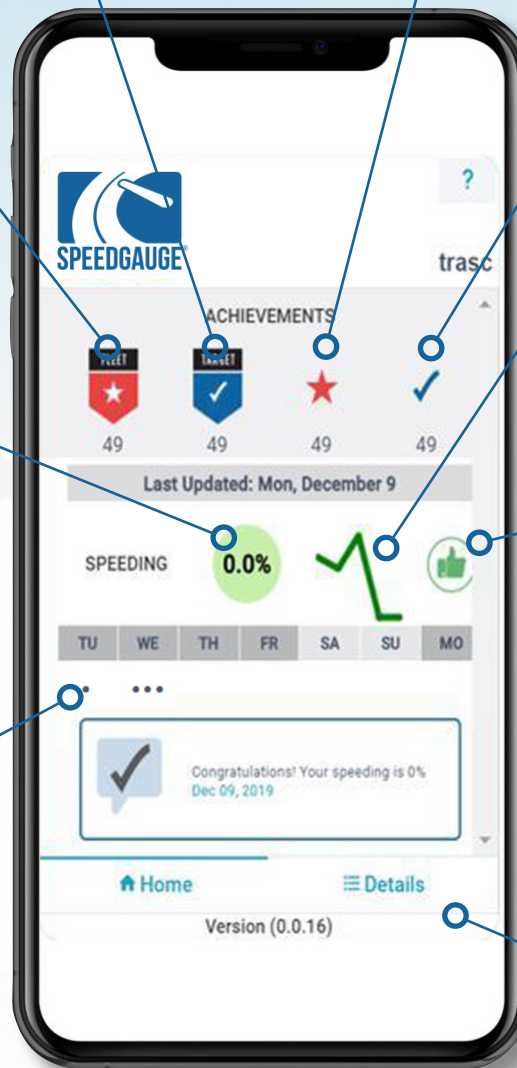

A red dot indicates that you have exceeded the fleet target. You are speeding.

DAILY ACTIVITY

Days with the dark shading are days when driving occurred.

One dot per day means some speeding occurred on that day.

Three dots per day means excessive speeding occurred on that day.

SPEEDING CHART

The chart displays at a glance your current rolling week speeding average and your previous calendar 4 weeks averages.

Quick at-a-glance status of your driving performance, up or down. Turns to red thumb down when speeding.
