

The Rhino and the Egret | CAA Calling All Neighbours
Described Video Transcript

00:00:00:01 - 00:00:06:08

[NARRATOR]

Just like CAA, great neighbours look out for you, your home, and your family.

A couple carries a couch into a living room

(DESCRIBED VIDEO)

A group of people sits around a dining room table

00:00:06:08 - 00:00:11:14

[NARRATOR]

At the Toronto Zoo, we see some of these great neighbours right here in the rhino habitat.

(DESCRIBED VIDEO)

Two rhinos walk from an enclosure into their exhibit at the zoo

00:00:11:14 - 00:00:25:23

[ANGIE]

So, that's a cattle egret. Egrets will hang around near the rhinos, or on top of them, and they actually eat the flies. And so, the rhinos are very happy to have the egrets hanging out with them because that means every fly the egret catches is not biting the rhino and bothering them.
