Delivering the NDIS in your community.

Wanslea acknowledges the Traditional Owners of country throughout Australia and recognises their continuing connection to land, waters and community. We pay our respects to them and their cultures; and to elders both past and present.

Early Childhood Approach (ECA)

Who is the ECA program for?

The ECA Program is designed to support children aged under 7 years who may have a developmental delay or a disability.

The ECA Program recognises that a child's early years are important for their long-term development and help lay the foundation for their future abilities.

A diagnosis is not required to access the program as the focus is on early childhood intervention.

It is important to support children with a developmental delay or disability as early as possible.

Wanslea is the Partner in the Community for delivering the ECA Program in Western Australia.

How does it work?

You can get early connections through your early childhood partner. This may include any combination of connections to:

- community and other mainstream services
- practical information that's relevant to your child's development
- connections to other families
- early supports
- help applying for the NDIS if your child is eligible.

Wanslea will work with you to understand what is going well and where your child may need further help.

They will collect this information by:

- using the PEDI-CAT—a questionnaire you will be asked to complete about your child's development
- observing your child playing, moving around and interacting with others
- talking to you about your family routines, the things your child enjoys and the things your family does together
- other assessment tools, if required.

The geographic areas covered are shown in the diagram above.

Please contact 1300 969 645 to find your local Wanslea office.
