ABSTRACT

Not just a meme. A Lifestyle. Welcome to Cava...

CAVAPOO was created in May 2021 with the goal of being a decentralized meme project with true purpose.

CAVAPOO's mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, CAVAPOO introduces holders to next-gen concepts such as frictionless yield, NFTs, decentralized exchanges, and real life charity drives.

$CAVA TOKEN

VALUES

2

TRANSPARENCY

We maintain open communication with our holders so they can stay current and informed with every step of CAVA's growth.

COMMUNITY

Ultimately, Cava is owned by the community, meaning we encourage group efforts related to marketing, development, community management and more.

TRUST

In the cryptocurrency market, Trust is paramount. That means not only providing transparency, but also security related to holder funds. Examples include audits of CAVA's code, and liquidity tokens being burnt to eliminate risk of malicious behavior.

LONGEVITY

CAVA is in it for the long haul. Our plans are for long-term development of the ecosystem which result in a fruitful investment beyond any temporary trends.
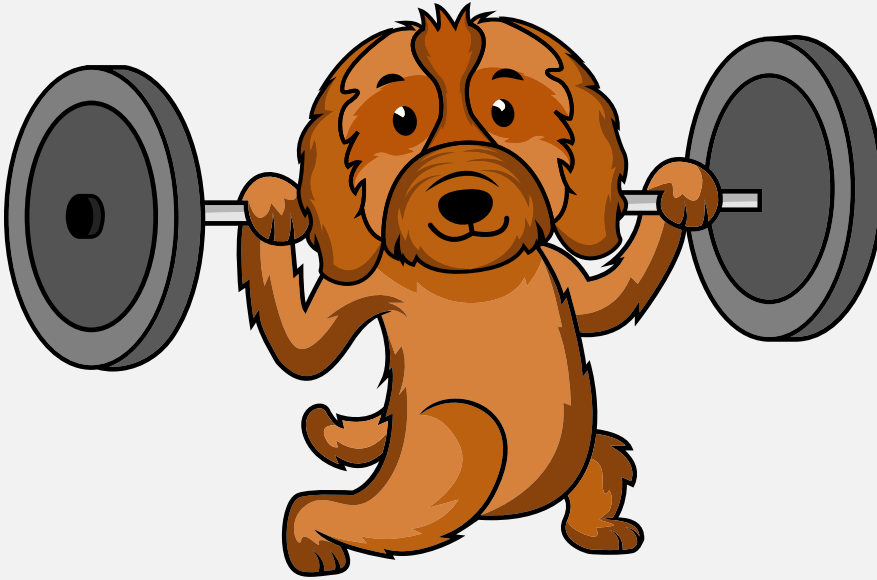

$CAVA TOKEN

$CAVA is an ERC20 token launched on the Ethereum blockchain April 28, 2021.

The max supply is 10 quadrillion and key functionality is its built-in redistribution mechanism. For every transaction (buy or sell), 3% is sent to existing $CAVA holders as a reward. That means their wallets increase automatically over time. 4% is distributed to liquidity as well for every transaction (buy or sell). $CAVA Token has also completed a security audit to further holder confidence.
