APPLICATION QUESTIONS

Tell us how you (or the nominee) transformed your organization's quality of work and life, engagement and productivity to allow members or employees to maximize their fullest potential. How did you(r team) devise your system? How was it innovative and how does it scale with your organization's growth? Be specific of what was done such that those reading could replicate and apply the methodology or intervention themselves.

Please share details on how the organization looked **before** the intervention.

Please share details on how the organization looked **after** the breakthrough and include quantitative and/or qualitative measurable lift in performance or outcomes.

APPLICATION QUESTIONS

Tony spent his life designing environments and experiences to foster wonder, inspiration and connection between people. Was there an impactful moment that shaped your story, and how did it create a moment of awe, connection and scale of impact that will inspire others to do the same?

You are invited to include other testimonials, references, links and documents, published work that further showcase the breakthroughs you or your company/organization have achieved and help those wishing to replicate your intervention in their organizations.

If you had the world's attention for 30 seconds, what would you say?
