INVESTMENT SUMMARY

The Munro Climate Change Leaders Fund is focused on creating a portfolio of climate winners that help enable the decarbonisation of the planet – those companies that are best positioned to champion and win from this structural change.

INVESTMENT OBJECTIVE

The investment return objective of the Fund is to maximise long term capital appreciation, by investing primarily in a concentrated long-only portfolio of companies focused on decarbonisation and climate change located anywhere in the world. The Fund aims to achieve a return greater than the MSCI All Country World (Net) Index in \$A (Net) over a 5 to 7 year period.

The Fund is not intended to replicate the index.

INVESTMENT TEAM

Nick Griffin, CIO & Co-Lead

4. PORTFOLIO CONSTRUCTION

Stocks 	15-25 positions
Stock constraints 	Max 10% of NAV at cost
Cash 	Max 10%
Currency 	Unhedged
Risk management 	Proprietary stop loss review framework

PORTFOLIO

Investment approach

Climate investment is at the very start of its S-curve, with many new climate technologies still early in the adoption phase and therefore having the potential for significant growth.

Munro has identified four sub-sectors or sub-trends of interest related to the world's move toward a net zero carbon emissions goal:

Clean Energy

Companies at the forefront of renewable energy generation covering wind, solar and renewable diesel.

Energy Efficiency

Companies at the forefront of insulation products, electrical switches, lighting and metering technology.

Clean Transport

Companies benefitting from the growth of electric vehicles, battery technology and alternative transportation.

Circular Economy

Companies most likely to benefit from efforts to improve recycling, alternative packaging materials and management of wastewater.

For more details on the case for climate, the race to net zero and the sub-trends above, please visit [Munro Partners here](#) and download the Climate Aol whitepaper.

HOW IS THIS FUND DIFFERENT TO OTHER GLOBAL CLIMATE FUNDS?

- In comparison to many other climate funds that focus on index weighted net-zero businesses, the the Munro Climate Change Leaders Fund is built on a concentrated long-only portfolio of 15 to 25 companies combatting climate change.
- Each of Munro's funds are focused on finding global structural growth winners, however the Munro Climate Change Leaders Fund is focused on creating a portfolio of climate winners that help enable the decarbonisation of the planet – those companies that are best positioned to champion and win from this structural change.
- The Fund offers investors the opportunity to invest in a concentrated portfolio of listed equities across a range of industries and countries whose earnings prospects should improve with increased investment and focus on decarbonisation.
- It comprises a high conviction portfolio climate positions that aims to outperform the MSCI over a 5 to 7 year period.
- The investment strategy is designed to identify sustainable growth trends that are under-appreciated and mispriced by the market, and the resulting winning stocks.
- It provides access to a high-quality, Australian-based investment management team with a proven track record of running international equity mandates for clients.
- It has a disciplined investment process that utilises a proprietary stop loss review framework and price targets.
- The Munro team invests in the Fund, creating a strong alignment of interests between Munro and our clients.

SUITABILITY

The Fund is designed for investors seeking a long term exposure to a portfolio of high quality global growth and climate change focused equities with the potential for capital gains.

The investment return objective of the Fund is to maximise long term capital appreciation, by investing primarily in a concentrated long-only portfolio of companies focused on decarbonisation and climate change located anywhere in the world.

The Fund aims to achieve a return greater than the MSCI All Country World Index (Net) in \$A over a 5 to 7 year period.

The Fund will invest in a concentrated portfolio of 15 to 25 listed equities across a range of industries and countries whose earnings prospects should improve with increased investment and focus on decarbonisation.
