

The startup
reimagining
workplace
wellness.

We have set out to reimagine how you connect and engage with your people to drive meaningful change for their lives and your business.

We're doing this by focusing on improving people's physical health and wellbeing from the convenience of home with **June365** an all in one Digital Coach and SmartDeck.

Built with a global innovation mindset.

F&P Tech are here to lead the change through customer-focused, value-driven innovation. With a core focus of 'accelerating the future to improve people's lives', we've been creating smart, connective and customised drive systems since 1992. We've now powered a new solution - June365, a personalised health & wellness experience, designed and calibrated for you.

Having seen the challenges our society faces, we've found we can improve the quality of life by providing a solution which supports organisations to address the challenges of the new ways we work, while improving the physical wellness and wellbeing of individuals.

In 2019 F&P Tech set out to develop a new, revolutionary way to use a smart motor to support people to lead a more active life.

Who we are.

Haier
Founded in 1984
 An international brand with a broad range of home appliances built for everyday chores and designed for everyday living.

Making over **7 million** motors a year

21 fully automated production lines

F&P·TECH
 Experience & expertise

Experience in **60+** industries

More than **40** patents

Leveraging IP

Mechanical Engineering, Electrical Engineering, Digital Experiences & an Innovation Hub

280 employees globally

We're on a mission.

We're on a mission to create sustainable and meaningful change for individuals, organisations and our global community.

Leveraging our experience and expertise in smart motor innovation, we have set out with a single goal. To design revolutionary new ways of supporting everyone to lead an active, long and healthy life.

We're all experiencing change at a rapid pace and scale. We cannot control disruption and the impact it has in our lives. However, we can adapt and create new ways to thrive.

When we lead a well and healthy life, we create positive and meaningful change in ourselves, our families, work and communities.

As we age, our functional strength decreases.³ We all need to invest in improving our functional strength for an active and healthy life.

Organisations have faced unforeseen challenges across their operations, people and culture. Those who saw opportunity have reaped the benefits. This has not been the case for those unwilling or incapable of change. It's impacted our homes, communities and economy.

We need to address these challenges and find new ways to operate. So, we want to connect home and work in new and exciting ways. Simply put, we want to transform lives so we all benefit. Be it individual, leader, organisation, investor or social enterprise, we want to work with like minds who want to effect change.

Physical wellness and wellbeing are too important to ignore. We need to begin now - for ourselves, our children, homes, economy and community.

**We are at the start of a very exciting journey.
We want you to join us. Let's create a new way forward together.**

Our Story.

The Discovery

POWERED BY:

Fisher & Paykel Appliances establish F&P Tech in 1992.

GOAL:

Leveraging experience in R&D innovation, smart motor technology and IP to design solutions that accelerate the future to improve people's lives.

RESEARCH:

Researched how smart motor innovation could be used in new ways to tackle challenges we face throughout the world.

The Challenge

CHALLENGE:

How do you support people to lead a long and healthy life?

THE PROBLEM:

Sarcopenia, the loss of muscle mass and strength, affects every person's quality of life as we age.

After age 30, muscle mass decreases as much as 3%-8% per decade.¹

RECOMMENDATIONS:

Studies show Sarcopenia can be reversed with a healthy diet and regular strength training. These simple measures can increase lifespan and improve quality of life.²

GUIDELINES:

World Health Organisation (WHO) recommend incorporation of functional strength workouts that involve all muscle groups, twice per week, to improve health.⁴

The Solution

JUNE365:

Born in 2019, **June365** is a smart physical wellness solution designed to support organisations improve the physical health & wellbeing of their people through corporate wellness and health & safety solutions.

SmartDeck:

The SmartDeck was the result of prototyping design solutions which would improve muscle mass and strength whilst incorporating F&P Tech R&D innovation.

APP:

To create a seamless and intuitive experience between June and the SmartDeck the **June365** app was developed.

DIGITAL COACH:

Personalisation and support were identified as key drivers to create meaningful and sustainable change. June was born. A digital coach who would support individuals with workouts, guiding them to improve their physical wellness and overall well being.

REAL TIME FEEDBACK:

To support real-time feedback and personalisation, in-built sensors monitor range of motion and body position to ensure correct technique, and the electric motor technology gives **June365** the ability to precisely control the resistance at all times.

AUDIO EXPERIENCE:

Understanding the power of audio experiences, 3D Immersive Audio was created to support people with disconnecting from a mobile first experience and move into a deeply engaging auditory experience.

ADVENTURES:

Gamification is proven to engage users with new ways of learning and motivating behavioural change.⁵ Developing immersive virtual adventures, June and her team of trainers and a narrator use the audio experience to take you on virtual audio based adventures exploring exciting new ways of working out.

The Future

PILOT CUSTOMERS:

Six iconic New Zealand organisations came together in 2021 for a world first pilot of **June365**. These organisations joined forces to tackle wellbeing in new ways focusing on prioritising the physical health of their people everywhere they work.

Q1 2022 PILOT:

A limited space, exclusive pilot commences Q1 2022 and your organisation could be one of the first in the world to be part of creating the new way forward, working with us to change workplace wellbeing. Let's start transforming the lives of your people and organisation - together.

THE FUTURE:

We want to improve people's lives on a global scale. As a start up business, we are looking to work with ground breaking innovators and investors who seek to drive global change. We are at the start of our journey and we are ready to create meaningful and sustainable change everywhere.

Our Values.

We place people at the heart of everything we do.

We started with a single goal. To design revolutionary new ways of supporting each and every one of us to lead an active, long and healthy life. With people at our core, we're on a mission to create sustainable and meaningful change for individuals, organisations and our global community.

We believe wellbeing starts at home.

Supporting people to lead a well and healthy life at home creates meaningful change for individuals, families, organisations and communities.

We want to create sustainable change that benefits families through generations. Change begins with creating new habits. We're here to help make that easier.

We want to connect home and work in new ways to benefit us all.

We want to reimagine how organisations connect and engage with their people. We support organisations to redefine physical health & wellbeing in the workplace to create positive change that benefits everyone.

We believe health & wellness should be accessible for all.

We want to break down stigma and barriers and develop physical wellness solutions which are accessible, inclusive and personalised for an individual.

We're here to help people start, create habits, sustain change and thrive long term so everyone can improve their physical wellness and wellbeing.

Our Difference.

We're all unique and our wellbeing is personal.

Currently wellbeing is treated as a one size fits all approach. However no two minds and bodies are the same.

We know the key to success is personalised experiences.. That's why we design solutions that adapt to individual needs and goals.

We are transparent and authentic to who we are.

Our foundations are built on transparency, integrity, care and respect. We're clear on our why, committed to our cause and an open book. Feel free to ask us anything.

We want to work with like minds.

We want to surround ourselves with those who want to collaborate, create and connect to make a difference and effect lasting change. Be it at the start of a journey or well on their way, we want to work with like minds today and into the future.

Our people are what create our difference.

Our difference comes from the minds and hearts of the people who create, challenge, inspire, adapt and transform our organisation. We value diversity, inclusion, creativity, growth mindset and entrepreneurial spirit. We love that our people bring their passion to their everyday life and that together we make a difference every single day.

Our roots creates a strong ground to launch from.

Born from a global organisation, we have the benefit of lessons learned and a history of innovation. We have a strong foundation of long established supply chains, manufacturing and organisational expertise which delivers - each and every time.

Paving our own way, we're agile, innovative and passionate. We have a bold mission to improve lives every step of the way.

Connecting home & work in new ways.

COLLABORATIVE PARTNERSHIP

- Collaborate with F&P to enhance a physical wellness solution that will engage your team in new ways.
- Partner with other iconic organisations to innovate and stand out as leaders adopting and transforming wellness in the workplace.
- Experience measurable change and tangible return on your wellbeing investment.
- Increase physical activity and improve the performance of your people at home and work.
- Benefit and learn from shared experience, expertise and R&D within the **June365** community.

“ If you take care of your people, they will take care of your business. ”

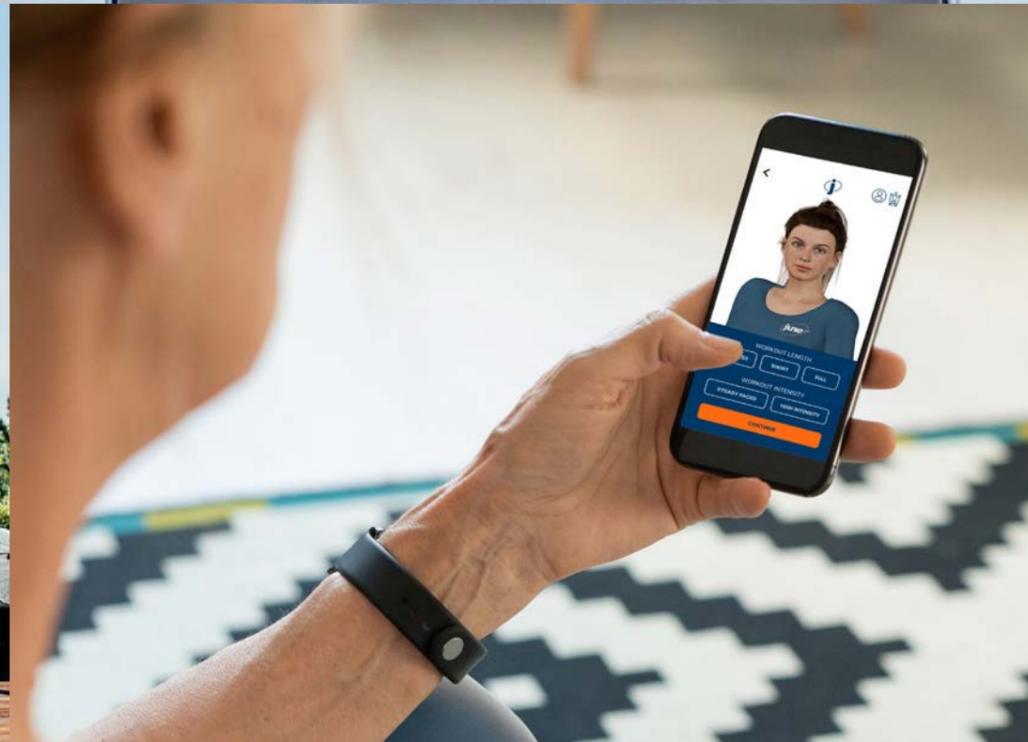

RICHARD BRANSON

Introducing June365

Your all in one functional exercise **SmartDeck** and **Digital Coach**.

A smart way of approaching physical health.

June365 is designed to guide individuals along their wellness journey with individualised programmes, voice responsive intuitive technology, and their very own personal digital coach to help them lead a more active lifestyle.

The benefits of leading an active lifestyle are immense⁶ – reduced stress, better sleep, the ability to make better healthier life decisions, increased productivity at work and less sick days⁷ to name a few.

June365 equips individuals with the tools and experiences they need to incorporate a healthy wellness culture into their personal and work lives.

Your digital coach beside you every step.

YOUR COACH, MOTIVATOR AND BIGGEST SUPPORTER

June and her team are available on-demand adapting to fit into your busy lifestyle and there to support you on your journey to improved health and wellness.

Taking the hard work out of planning and preparation, June starts by teaching you the exercises and correct technique.

During the session, June will provide you guidance on how to improve your form and motivate you to continue to improve with each set. June then evaluates each workout and plans your next session.

Sessions are individualised, varied to keep things interesting and based on your personal progress to help you achieve your goals.

Incorporating a SmartDeck that makes a difference.

Adaptive resistance through world leading smart motor technology provides a truly tailored approach to strength training.

Sensors monitor range of motion & body position to ensure feedback & coaching is optimised for the individual.

The SmartDeck offers a wide range of motion that includes being able to lift weight above your shoulders. It's also portable and battery powered, enabling you to use when and where you want.

With three different resistance modes that are used for different exercises and workout experiences. The SmartDeck offers free weight, variable resistance, and eccentric overloading modes.

AUTOMATIC CALIBRATION

June365 automatically calibrates and adjusts the weight and resistance modes while you rest.

EXPERT MOTION SENSING TECHNOLOGY

June365 senses your movements through patent pending sensing technology, allowing June to give you real-time feedback on your form.

60 FUNCTIONAL STRENGTH BASED EXERCISES

June365 supports 60+ functional strength based exercises with varying levels of resistance.

Delivering an immersive audio, interactive voice experience.

June365 has self-guided, interactive, 360° immersive audio.

Through immersive audio and interactive voice responsive technology, switch off from screen time and focus in on yourself and the physical activity you're undertaking with June.

The audio experience enables June to transport you into a focused mental zone where you are guided through workouts, adventure challenges and motivation without the distraction of screens.

This kind of coaching connects your mind, body and senses. Coupled with real-time feedback, you can focus on movement,

form and technique correction and adapt to improve and get the most from every workout.

June365 is designed so you can pause by putting the handles down at any time to look at the instructions on your phone, and then pick the handles up to resume your workout.

It is recommended to complete the workouts through headphones for a full audio immersion experience.

June365 can also be connected to any bluetooth speaker.

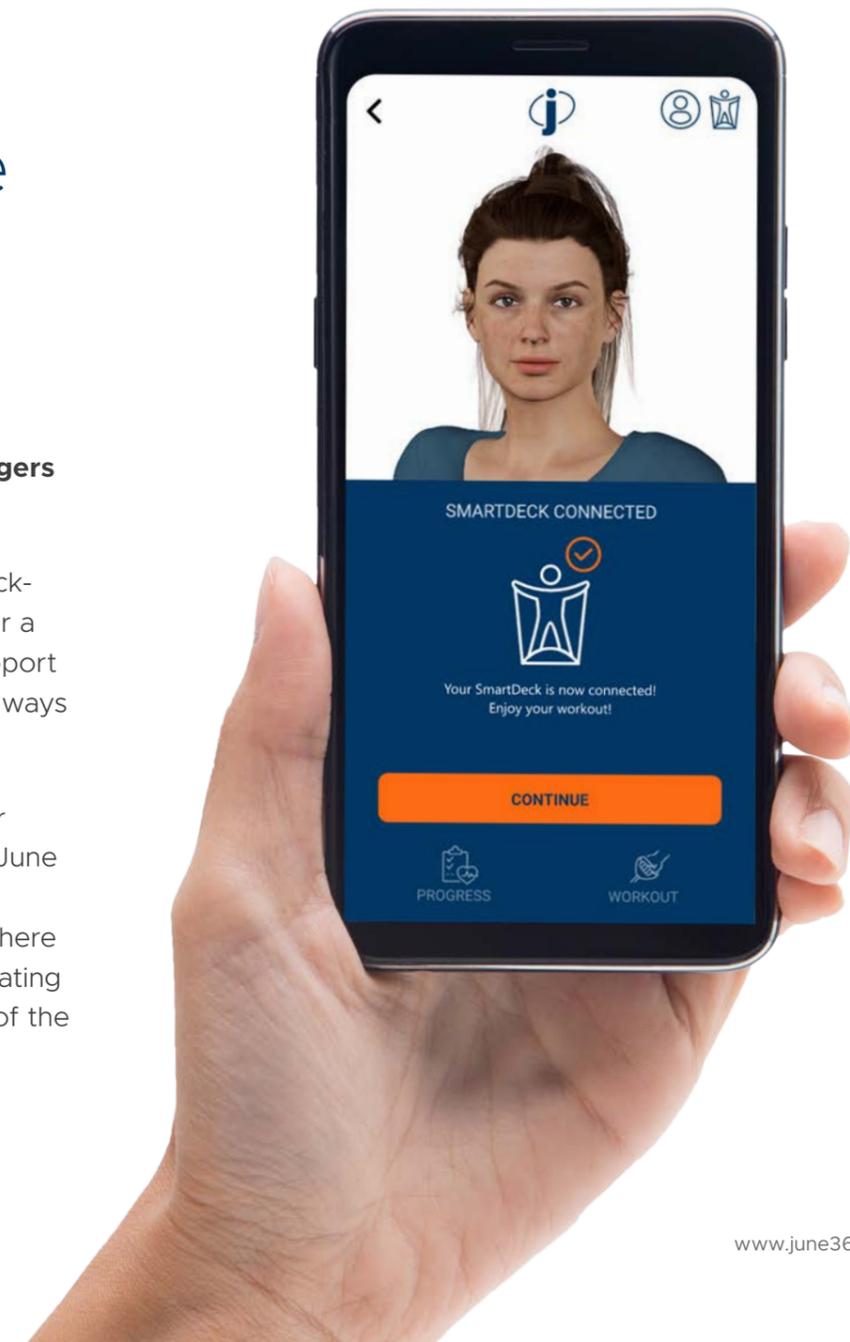

Which is simple & intuitive.

June is available at the tip of your fingers via the June365 mobile app.

Whether it's completing a wellness check-in, getting ready to jump on the deck for a workout or to access wellbeing and support from June, connect and engage in new ways with **June365**.

Users can easily stay up to date on their progress as they receive updates from June detailing their results. Highlighting their achievements, providing guidance on where they can focus on improving and celebrating their success, June is there every step of the way to better physical wellness.

A man with a beard and sunglasses is laughing while a woman with long blonde hair is laughing and hugging him from behind. They are outdoors near a body of water.

Join us on the journey to improve physical health of people everywhere.

JUNE 365 DISCLOSURE AND DISCLAIMER

1. The June365 Program is delivered through a SmartDeck device which applies motor-based resistance and senses the location and movement of the SmartDeck handles in 3D space, together with our software delivered through a compatible smart phone or other device. The June365 Program is intended to be used for the purposes of performing strength training exercises and receiving interactive feedback and information to increase muscle mass and promote personal wellness.
2. Individuals should consult their physician before using the June 365 Program if they have a pre-existing medical condition; a muscle, ligament or deep tissue injury; have recently undergone surgery; have a history of injury, chest pain, impaired movement or balance, heart condition, difficulty controlling blood sugar levels or blood pressure; are pregnant; or have any ailment or disease which may result in additional risk from performing strength or resistance training.
3. Individuals should read and comply with all warning labels and operating instructions provided in the June365 Program and should immediately stop using the June365 Program and consult a physician if they experience any pain, dizziness, nausea, fatigue, loss of balance, shortness of breath or other symptom that affects their performance or worries them while using the June 365 Program. The June365 Program should not be used by individuals under the age of 18 years old or by individuals while under the influence of drugs or alcohol.

Views expressed in this document are the opinions of June365, except where sources are referenced. Actual end user product may differ from that shown.
