

WHAT OUR CLIENTS ARE SAYING

▶ **GEENE ALHADY- PRESIDENT, CLARK PACIFIC**

"As we continue to grow and expand our product and service offerings, we needed a system that helps us manage the entire design-manufacture-build process. Manufacton will not only help us streamline operations but ensure manufacturing quality and consistency, furthering our commitment to our customers to deliver the highest quality products while reducing overall risk."

▶ **NATE KAYLOR- ASSOCIATE DIRECTOR OF TECH & INNOVATION, FACTORY_OS**

"Manufacton data feeds Analytics Dashboards at Factory_OS, which are used to track critical production metrics, and are referenced by nearly every department: from Procurement, Production, to Project Management and Sales"

"With nearly 500 employees at Factory_OS, it is crucial to have a standardized platform to coordinate the design and production of our building modules."

"This Single-Source-of-Truth solution enables visibility into complex operations, allowing us to optimize and keep costs low so that we can deliver quality products, increasing affordable housing options throughout California"

▶ **MATTHEW WHITEHOUSE- PROJECT MANAGER, BRITTON ÉLECTRIQUE**

"When searching for a way to expand our prefabrication business while increasing our efficiency, we found Manufacton. We use the Manufacton platform on most of our projects and it has allowed us to better coordinate between our departments and deliver just in time."

"Collaboration with Manufacton has given our prefabrication department a competitive advantage, helping us expand our business and retain the #1 spot as industry leaders in our province."

▶ **CHRISTOPHER EVANS - PRESIDENT, TIMBERLAB**

"At Timberlab, we believe that the future of construction is mass timber, and we aim to simplify and improve the mass timber production and installation process to make it easier to select the sustainable option. We continue to partner with aligned partners, including technology providers, to become more agile and better equipped to foster mainstream adoption of mass timber and expand our sustainability efforts as we source and track materials from sustainably managed forests and laminators in the Pacific Northwest region."

WHAT OUR CLIENTS ARE SAYING

▶ PETE MURRAY- COO, DOMO MODULAR

"Having used Manufacton in my previous role at Skender, I knew the offsite production platform was just what we needed at DOMO to optimize our factory's production processes and increase its output as we develop modular mid-rise multi-family housing to meet the increasing need."

"We needed a way to accelerate our factory production processes while maintaining exceptional quality. The Manufacton platform provides all production and quality control data to the factory floor and captures real-time productivity, quality, and 3D geometry scans from Faro to ensure strict adherence to product specifications and compliance to 3rd party building inspector checklists."

▶ BRIAN LEWIS- REGIONAL VICE PRESIDENT, INTERSTATE ELECTRICAL SERVICES

"As we've expanded our prefabrication operations, keeping track of all the moving pieces has become increasingly vital. Manufacton helps tie our process together from inception to completion, streamlining projects and aiding us in creating effective and consistent lines of communication."

▶ JAY NIEMAN- PRE-CONSTRUCTION DIRECTOR, COLLINS ELECTRICAL COMPANY, INC.

"In the prefab shop, we had a board with papers all over the place for all of the tasks. Manufacton has completely removed that paperwork, so now we are seeing it pretty much live right on the screen. The Manufacton integration with Power BI has made our work in the prefab shop extremely visible to everybody."

▶ SHAWN GUERTIN - COO, TG GALLAGHER

"Our fabrication business has grown over the past five years and I can't imagine trying to manage this process without Manufacton. We see prefabrication and technology as a way to smooth out our manpower curves and even out the ups and downs of project schedules, and we can do more work with the same amount of people."

WHAT OUR CLIENTS ARE SAYING

▶ **TODD MCCABE, VP PROJECT SERVICES, CONSIGLI**

“We have been searching for a platform that will provide us real time access to fabrication and delivery dates, while increasing our site supervisor’s flexibility and improving our chances for schedule success. Manufacton has done this, while furthering collaboration and communication between our team, subcontractors and vendors.”

▶ **TROY GALVIN-FORMER MANAGER OF PCL AGILE, PCL**

“When you have multiple workflows where some overlap and others run parallel, communication is a key factor in effective process management. Whether it’s communication between workflows, or communication between project stakeholders; Manufacton helps streamline those communication channels by making critical information easily accessible.”

▶ **BRIAN POTTER- PRESIDENT AND CEO, TG GALLAGHER**

“Manufacton has enabled us to do more prefab and do it better. Prefabrication is a simple strategy—but getting the execution right is complex. We look to Manufacton to help us manage that complexity and to keep us one step ahead of the construction industry’s challenges.”

“We had been struggling to provide visibility into our production ‘black box’ to our project coordinators and field superintendents. In addition to helping our shop foremen organize production, the mobile app from Manufacton is used by our field and office teams to know exactly what has been produced and where it is right now.”
