

TOITOI

STORY SEARCH

Write a story or poem inspired by 11-year-old Laura Sohn's incredible artwork published in Toitoti 16.

You may submit in English or te reo Māori.

Send it to submit@toitoti.nz and include your name, age, school and a parent/teacher's name and contact details.

Submissions are due on September 27, 2019.

We will publish the best story in Toitoti 18 with additional illustrations by Laura.

Yellow

Bees and humans
built the hive:
hexagon, honeycomb, honey.

They built the doors:
entrance ducts.

They built staircases and ladders
between the floors:
pipes and circle vents.

There was air to breathe:
air ducts, aka air vents.

The maths told them how many bees,
how many humans,
lived in the hive.

They used exercise rings
to build strength.

Honey became the ocean
of their earth.
They all turned yellow.
