### COURSE OUTLINE

Join Dr Greg Celine and Dr Lisa Bowdin for a day of paediatric dentistry seminars. A wide variety of topics will be covered, including management of children at different ages, common paediatric conditions, dental trauma and practical tips for the whole dental team. They will conclude the day with interesting case presentations and discussions.

### ABOUT THE PRESENTER

**Dr Greg Celine** is specialist paediatric dentist with a special interest in the treatment of medically compromised children. Greg completed his undergraduate studies at Griffith University on the Gold Coast and his specialist training in Paediatric Dentistry at The University of Western Australia. Greg works as a full-time consultant paediatric dentist at Perth Children's Hospital where he works with children with medical co-morbidities including cleft lip and palate, dental traumas and other acute, chronic and congenital dental presentations. He is also the vice president of the WA Branch of the Australian and New Zealand Society of Paediatric Dentistry and paediatric councillor for the Dental Specialists Association of WA.

**Dr Lisa Bowdin** is a specialist paediatric dentist operating in private practice in South Perth, WA. Lisa completed her undergraduate studies at The University of Western Australia, and worked as a general dentist in Bunbury, WA. After seeing the burden of dental disease in children in the region, Lisa completed her postgraduate studies in Paediatric Dentistry at The University of Western Australia. Lisa also works as an after-hours on-call paediatric dentist at Perth Children's Hospital. She is currently the WA Branch Federal Councillor for the Australian and New Zealand Society of Paediatric Dentistry and treasurer for the Dental Specialists Association of WA.

**Management of children at different ages, common paediatric conditions, dental trauma and practical tips for the whole dental team.**
