

Hydropower Conference

March 15–16, 2022 | Palm Springs, CA

COVID-19 GUIDANCE

CEATI is committed to promoting and implementing best health and safety practices for our events. Ensuring the well-being of all event attendees and our team at CEATI is our top priority. We are following the suggestions of the [Center for Disease Control and Prevention \(CDC\)](#), [World Health Organization](#), and [California state public health guidelines](#) as they are developing.

CEATI 2022 Hydropower Conference will adhere to the following guidelines:

- As of December 15th, 2021, California is requiring wearing of masks in all indoor public spaces and workplaces, regardless of vaccination status. To help protect each other, CEATI requires that all attendees wear masks in all indoor conference space and comply with state guidelines. CEATI will provide complimentary masks to all attendees.
- All meeting set-ups will accommodate social distancing. We encourage all attendees to practice social distancing throughout the conference space. CEATI will have a system in place to ensure all attendees' comfort level is respected.
- CEATI and the hotel will provide increased sanitation stations throughout the conference space.
- If you feel unwell (due to COVID-19 or any other contagious illness) or have been exposed, we ask that you please not attend.
- We will offer a limited amount of rapid tests onsite for anyone requiring one.
- [Click here](#) to learn more about the Westin Mission Hills protocols and Marriott's Commitment to Clean. We will work with the venue to provide a safe environment for all.

CEATI will continue to monitor the situation and guidelines, and update this guidance as needed.
