BRING THE MAGIC TO YOUR WORKPLACE!

EMPLOYEE-FOCUSED CORPORATE ALLIANCES
Kesem supports children ages 6-18 through and beyond a parent’s cancer with innovative, fun-filled programs that foster a lasting community. We are the largest national organization that has programming designed only for children with a parent facing cancer, a population estimated to be over 5 million. Our Through & Beyond programming, which includes our renowned flagship program Camp Kesem, is offered at more than 130 universities in 44 states, allowing us to serve over 7,000 campers annually.

Kesem’s model is heavily rooted in college-student leadership, providing a meaningful connection for employers looking to engage the next generation of highly-skilled and compassionate leaders, while inspiring their existing employees. To-date we have over 4,000 college student leaders who make the magic happen at Kesem. We are invested in the ongoing cultivation of these students’ professional development as we realize that this in turn has a positive and long lasting impact on them as well as our campers and their families.

**EMPLOYEE-FOCUSED CORPORATE ALLIANCES**

Kesem’s partners have been essential to its growth over the past 20 years and its remarkable story of scaling from a grassroots idea to a national organization dedicated to helping children whose parents are facing cancer throughout the continuum of the patient journey.

Kesem has built unique ways for its corporate partners to engage their employee base and show their commitment to charitable giving and support. What follows are just a few ways that your company can benefit from Kesem’s sponsored employee engagement programming.
