client testimonials

I had the pleasure of working with Scott to help me assess/ navigate a particularly challenging situation. Scott is masterful at being able to understand a complex situation from the outside and provide effective strategies to consider. He came to every discussion well prepared--it was clear that he not only looked at materials that were provided in advance of meetings, but studied them and used the information to inform his thoughts and recommendations. His dedication to his clients is unparalleled and for me the time was well spent. I hope to be able to work with Scott in the future.

Scott is a great thought leader in the area of leadership and engagement strategy. He has helped me build the culture and engagement of our employees with the highest level of integrity. He takes the time to understand your leadership style and most important- he takes the time to understand the company and the dynamics associated with same before making any recommendations. He is thoughtful, sincere and dedicated. He has coached many of my employees and uses the tools appropriately to assess their potential value to the organization.
