KRISTINA DAM
Studio

10 Years of Sculptural Minimalism

Arches and architecture have been the essence of the

Kristina Dam Studio's monochrome collections for the past 10 years. In 2022, we mark our focus on sculptural minimalism with our new clean, honest, and contemporary designs and acclaim our passion for craftsmanship and material.

Kristina Dam Studio was founded in 2012 by graphic designer Kristina Dam. The initial design idea for the studio was to create industrial designs with an art-based approach. The idea of making art and interior design merge, both in furniture, accessories, art prints and illustrations.

The journey of Kristina Dam Studio started with a series of limited-edition illustrations, but in the past 10 years the design portfolio with furniture, home textiles, sculptures and more.

The portfolio consists of designs with the same quality and potential of a classic: The modernist couch, the Bauhaus-inspired Grid series, and last season's take on a classic and crafted dining table and dining chair, the Collector.

Kristina Dam Studio is known for the design approach for "Sculptural Minimalism". We define sculptural minimalism by merging the artist's meticulous attention to detail with the architect's vision and spatial understanding. The respect of nature's own materials is integral to every piece, our passion for the diligent craftsmanship is evident in every item and each design is more than just interior objects. They add a statement to any room.

To celebrate Kristina Dam's inspiration from art and architecture, we launch a new sculpture design every season. Sculptures not necessary with a function, but artistic sculptures designed for those who love to bring accessible art into their home.

The 10-years anniversary will be marked with an anniversary exhibition in summer 2022.
