

Time & Attendance Simplified

TIME & ATTENDANCE SOFTWARE

Online Software

PayClock. Cloud-Based Time & Attendance Software

Now you can manage employee time and attendance from anytime and anywhere. All you need is a web browser and an internet connection to capture, edit and seamlessly integrate your workforce time and attendance data into payroll. Imagine the possibilities. Lathem's cloud based time and attendance software allows you to manage employee time sheets, calculate labor hour totals and export for payroll processing while out of the office, at home, business travel or even on vacation! You can give employees options to clock in/out using Lathem automated time clocks and record punches on mobile devices using the included PayClock app. Employees and supervisors can have on-demand access to view time sheet info; current in / out status; total hours; benefit time; as well as send and approve time off requests and much more!

Anytime. Anywhere.

Never any software to install or maintain. Runs on Lathem servers in the cloud. Data is secured and backed up daily by Lathem.

Proximity Badge Time Clock

Easily record and manage employee time and attendance with the wave of a badge. Lathem's new PCPROX time clock has a modern 7" LCD touch screen interface that allows employees' to clock in & out, check their totals, change departments, add amounts, and more. Supervisors can easily manage daily timekeeping requirements at the clock as well. Adding employees and editing punches are easy, and just a few of the many features available.

The PCPROX has built in WiFi, so data is sent in real time to Lathem's PayClock time & attendance cloud-based software, where you can access and manage employee time card info at anytime, anywhere, via your secure web portal account.

The system requires a subscription to Lathem's PayClock online software.

A Model PCPROX Proximity Badge Time Clock System

- 7" capacitive touch screen employee and supervisor kiosk application.
- Employees can clock in/out using the proximity RFID card reader.
- Uses Ethernet, POE (Power-over-ethernet) or WiFi communication with encryption.
- Supports 1,000 employees & includes a built-in dry contact relay for bell ringing.
- Employees and supervisors can perform functions like entering tips, checking benefit time balances, and many more.
- **Requires subscription to PayClock Online** web-based time and attendance.
- Size: 5.38" W x 3.63" D x 12" H 1.6lbs. ABS Plastic Case.

PCPROX	Touch Screen, Built In Relay & Badge Reader
RF-BADGE	Proximity Badges (pack of 15)
RFKEY-5	Proximity Key Fobs (pack of 5)

AUTOMATED SYSTEMS

Cloud Based Touch Screen

CloudTouch Time Clock System

Now you can easily record and manage employee time and attendance with the touch of a finger. Lathem's new CloudTouch time clocks have a modern 7" LCD touch screen interface that allows employees' to clock in & out, check their totals, change departments, add amounts, and more. Choose the CloudTouch time clock model that captures your employees time with a state-of-the-art biometric fingerprint sensor or proximity badge card reader. CloudTouch time clocks have built in WiFi, so data is sent in real time to Lathem's PayClock Online time & attendance cloud-based software, where you can access and manage employee time card info at anytime, anywhere, via your secure web portal account.

PIN Entry

You decide which employees and supervisors can use a unique PIN number in lieu of, or as a back up to, badges or biometric identification.

Employee Hours

The punch confirmation screen shows the employee the time they punched in/out, their total worked hours for that period and even messages from their supervisor.

Transfer Depts

Employees can easily choose from a customizable list of departments that automatically set the proper hourly pay rate.

B Models CT70 & CT72

Face Recognition Time Clock and Access Control System

FacelN® biometric time clock system is a complete time and attendance solution that uses contactless optical face recognition technology to instantly identify employees. FacelN time clocks provide a touchless, more hygienic alternative to other biometric systems, while eliminating “buddy punching” and the need for cards and badges. Employees simply look at the clock and within seconds they are identified and clocked in for work. FacelN uses a standard Ethernet connection to your existing computer network. The FacelN model CT74 also includes a built-in dry contact relay providing optional secure door access control to admit employees into secure interior locations. **The system requires a subscription to Lathem’s PayClock online software.**

Model CT74 Face Recognition System

- Uses fool proof face recognition technology to instantly identify employees.
- Provides contactless hygienic alternative to fingerprint readers.
- Eliminates "buddy punching" and the need for cards and badges.
- Uses a standard Ethernet connection to your existing computer network.
- Supports 1,000 employees & includes a built-in dry contact relay for access control.
- CT74 has two infrared cameras and three dimensional face recognition technology in addition to the 7" Touch Screen and Proximity badge reader.
- **Requires subscription to PayClock Online** web-based time and attendance.
- Size: 9.2" W x 4.3" D x 6.3" H 1.75lbs. ABS Plastic Case.

CT74	FacelN Terminal with Touch Screen, Built In Relay & Badge Reader
RF-BADGE	Proximity Badges (pack of 15)
RFKEY-5	Proximity Key Fobs (pack of 5)

PayClock

Touch Screen Time Clock System

Full color, touch screen time! The Latham PC700 is a new time clock for a new work force. It's a wall mounted touch screen employee time clock that utilizes WiFi or Ethernet to connect to our PayClock Online time and attendance software. Employees use proximity badges or PIN to punch in and out and data transfers instantly to the web. Using the touch screen display, they can indicate department transfers, enter tip amounts, view their total hours and paid time off information. The PC700 works exclusively with PayClock Online offering secure anywhere, anytime editing, reporting and exporting to payroll.
