PREFACE & VISION

We expect the number of people participating in the Metaverse and purchasing NFTs to continue to grow rapidly in the coming months and years. To the same or even greater extent, the number of projects in the space will also increase. As a result, the space will become more and more confusing for non-experts. Good projects will quickly rise in price before they can be discovered by ordinary people, making it impossible for newbies to invest in them. On the other hand, more and more bad projects will be funded by clueless investors, resulting in complete losses for those investors.

We came to earth to solve this problem with our alliance.

We have made it our mission to give everyone the opportunity to be part of the NFT world. As part of an alliance between Earthlings and AlphaSkullz, we will join forces and realize great possibilities. Key elements are the Alpha knowledge and the raids.

Members of our alliance will benefit from valuable Alpha knowledge. Through our strength and contacts in the NFT world, we will build a unique knowledge pool that will offer great advantages to any holder of AlphaSkullz when it comes to investing in NFT's of other collections. This valuable knowledge will be available in Discord exclusively to holders of AlphaSkull NFTs.

This includes, for example, access to highly coveted whitelist spots and other insider knowledge. Through partnerships, we will cooperate with other collections and enable great benefits for our holders. Through our strong networking and reputation as an AlphaSkullz collection, we will be offered opportunities that would not be accessible otherwise.

The Raids - Gamified Interaction between NFT Collections. Through our regular raids of other NFT collections, we will loot popular NFTs and give them away to AlphaSkullz NFT holders as part of our alliance. This will create a fun interaction between different NFT collections that will create a buzz and visibility in the NFT world. Through guerrilla marketing actions, attention will be focused on specific collections and floor prices can increase. This playful interaction between communities will ensure that the AlphaSkullz collection becomes a brand name in the NFT world and will be indispensable. Other collections will wish to be attacked by us, as this will result in increased attention.

The \$oulz token system will regulate the chance of receiving the loot. This system is designed to reward loyal holders of AlphaSkullz NFTs with higher probabilities.

[The \$oulz token is an in-game token and not designed for trade itself, it has no value outside of the collection.]

THE TRILOGY

AWAKENING

EPISODE I

THE GENESIS FORCE COLLECTION

A few years ago, we, the Genesis Force [the special unit of the AlphaSkullz], reached your planet and began to infiltrate it. Your strength is rather poor, but you have developed something that interests us: your virtual neural multiverse called "the Internet". It's possible to create fantastic, crazy shit... virtually. No resources are needed and the possibilities are endless. We want to have that. So we uploaded ourselves to the internet. Since you are not completely uninvolved in this internet, we offer some of you a unique chance. Join the glory AlphaSkullz and become part of an unprecedented alliance. Then you need not fear our strength. We have decided to create 3,333 NFTs to simultaneously honor our Genesis Force. We want to see how great the will of the humans is to become an AlphaSkull. If this will is great enough and all NFTs are occupied, an alliance between humans and AlphaSkullz will be formed. Sounds fantastic right? Join us and let's do great things.

THE COLLECTION

The Genesis AlphaSkullz PFP collection is the **first episode of the trilogy** on your Ethereum Blockchain. Every single profile picture is a unique piece of art and was generated via random algorithms. Our collection on your "Internet" should be as awesome as we are. We have done a great job.

Each NFT is composed of **100+ traits of 6 levels** with **varying rarities**. Some traits are rarer than others, with some having very special characteristics that are **unique** to the individual. Crazy right?

We like it that way!

The Initial **MINT**

After proving the loyalty to our Alliance and being assigned an Alphalist role in our discord you will get the chance to merge with one of our strong AlphaSkull Genesis Force members for the price of 0.08 ETH.

The presale and public mint will both take place one day after the other in mid-march and the art will be revealed 24 hours after 100% sold.

There will be 3,333 Genesis Force Members willing to merge with you earthlings in a strong bond.

The smart contract for the Genesis Force is based on the ERC721A standard with significant gas savings for minting multiple NFTs in a single transaction.

BENEFITS FOR GENESIS FORCE HOLDERS

- Yield \$oulz for holding the Genesis Force NFT
- Claim 1 x weapon, vehicle or equipment for each NFT [\$oulz + gas]
- Claim 1 x Apex Predator for each NFT to start episode 2 [\$oulz + gas]
- Automatically participate in the regular looting of other NFT collections and have chances to receive the loot!
- Benefit from valuable Alpha knowledge

There is a ranking of Genesis Force grades within the troop.

Depending on the grade, there are different chances of receiving the loot.

30%

30% of mint sales go to our raid treasury, investment in building the knowledge pool, developing marketing strategies and promotion of the AlphaSkullz.

70%

70% of the revenues are accounted for development costs and marketing expenses. Furthermore, investments are made in the long-term development and future of the AlphaSkullz to achieve our Vision.

ROYALTIES (5%)

50% of all secondary market royalties will be deposited into the raid treasury.

The remaining 50% will be distributed to the development and community fund to further the project's growth and development.

ARRIVAL

EPIISODE II

APEX PREDATOR COLLECTION

Mint with \$oulz or ETH

These are powerful creatures commanded by the Genesis Force. They are perfect hunters whose mission is to identify and eliminate the top of the food chain in order to more easily take over the planet.

The Apex Predators are our most powerful weapons as well as being some really sick bastards. They too will be uploaded to the "Internet" and when 100% human assigned, the sick shit will continue even bigger!

SKULL WARS

EPIISODE III

GENERAL COLLECTION

Mint with \$oulz or ETH

A new era of the Internet will begin and everyone who is part of the alliance will become a hero. Battles will be fought and things will be looted. This glorious time will last forever.

The generals are the supreme leaders in the hierarchy of the Skullz. They command the AlphaSkullz troops that are sent to conquer the planet entirely after the Apex Predators have prepared the way. Our forces grow and our alliance becomes stronger, allowing us to face more powerful and influential opponents. No planet will be safe anymore!

THE

VICTORY

IS OURS

We are crazy space pirates who have become one of the richest civilizations by raiding planets all over the universe.

THE 3 CORE BENEFITS

THE ALLIANCE

Our alliance will bring our earthling members vast benefits to make it in the metaverse and become as rich as our AlphaSkull society is. Other people will pay respect when they encounter Genesis Force Members in the metaverses.

Hold NFT - Yield \$oulz

Upgrade your NFT

By holding each Genesis Force NFT you will earn \$oulz (say: soulz) tokens to buy weapons and other upgrades to make your warrior stronger. The stronger your warrior becomes the higher his chances will be to return to our mothership with loot when we go raiding other NFT collections for NFTs or whitelist spots.

Raiding other NFTs

Win free NFTs & Whitelists

We want you to make it earthling. After infiltrating your blockchains we will send our troops to NFT collections and raid them to return as glorious winners with loot that we share amongst the members who joined us. Above that we will use our treasury to bribe other NFT tribes to give us access to their precious allowlists/whitelists.

Trust the Alpha Intelligence

Get NFT Alpha Access

We know that information is everything. Not only on your planet and blockchain. We will use our funds to get access to the best sources of information about the best metaverse assets. We will form a team that will scour discords to find worthy information that will be presented in a way the inferior earthling brain will be able to comprehend and act on.

*\$oulz token has no value,

\$SOULZ TOKEN

Showing your loyalty by holding your Genesis Force we will grant you part of the \$oulz we captured on our century-long travels through the universes. You will be able to enhance your Genesis Force and even recruit a predator for you. Some say there might even pop up black markets where you might exchange your \$oulz*.

Hold NFT - Yield \$oulz

Upgrade your NFT

Use \$oulz to purchase future drops, characters and upgrades.
\$oulz is the utility token for the AlphaSkullz universe. Be loyal and hold it as you will need it!

How to collect \$oulz:
In Episode I you can obtain Genesis NFTs. Holding them proves your loyalty and generates \$oulz.

While every member of our Genesis Force is a badass killer, they have different ranks and therefore generate different amounts of \$oulz when you keep them.

Here's an overview so your little human brain doesn't lose track:

Colour	Grade	Occurance	Yield multiplier
Metallic	Slasher	30%	1.1
Apollo Blue	Analyst	25%	1.17
Emerald	Veteran	20%	1.25
Purple	Commander	15%	1.32
Gold	Strategist	10%	1.39
1/1's	Council	0.09%	1.83

*\$oulz token has no value

ASK ALPHASKULLZ ANYTHING

How to obtain AlphaList?

There are 3 main ways to prove worthy of the Alphalist role and mint on pre-sale.

Through Missions in our training center

We designed a training center in discord where you can prove your strength and smartness to become the chance to be a part of our alliance

Through activity in our discord (be helpful)

Every alliance needs highly active and helpful members to thrive. Show us that you want to be a part and you might get rewarded

What is a raid?

Through our regular raids of other NFT collections, we will loot popular NFTs and give them away to AlphaSkullz NFT holders as part of our alliance.

This will create a fun interaction between different NFT collections that will create a buzz and visibility in the NFT world.

Through guerrilla marketing actions, attention will be focused on specific collections and floor prices can increase.

This playful interaction between communities will ensure that the AlphaSkullz collection becomes a brand name in the NFT world and will be indispensable. Other collections will wish to be attacked by us, as this will result in increased attention.

Through being part of another strong alliance

While scanning your planet we discovered other strong alliances that we want to welcome as part of our alliance.
