

Robotic Case Pack- ing

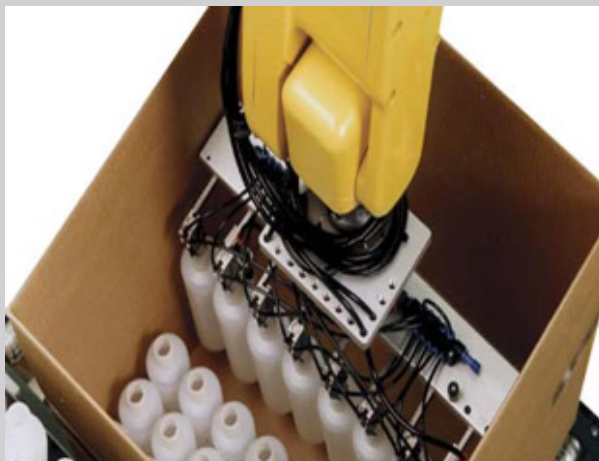

Wynright Robotics pulls from over 20 years of robotics integration experience to develop High Speed Case Packing solutions for a variety of products across multiple industries. We offer full line design and integration services that utilize the most modern technology and equipment. These systems reduce costs, and deliver exceptional reliability and uptime.

Highlights:

- High Speed Packaging and Palletizing Operations
- Pick Rates in excess of 100 Parts/Minute
- Advanced tooling designs to handle a variety of product
- Integrated vision and advanced sensing available
- 24 x7x365 Phone Support
- Spare parts from Wynparts.com

Robot simulations improve results
