

E2E NETWORKS LIMITED

Investor Presentation
2019

SAFE HARBOR

This presentation contains statements that contain “forward looking statements” including, but without limitation, statements relating to the implementation of strategic initiatives, and other statements relating to E2E Networks’ future business developments and economic performance.

While these forward looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations.

These factors include, but are not limited to, general market, macro-economic, governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance.

E2E Networks undertakes no obligation to publicly revise any forward looking statements to reflect future / likely events or circumstances.

E2E IS A CLOUD INFRASTRUCTURE PROVIDER

Building Superior Public Cloud Product with great Value to Customers

About us

- E2E Networks founded in 2009; is a Cloud Infrastructure provider
- Amongst the largest Indian Public Cloud Companies in India
- E2E raised initial investment from Blume Ventures and has got listed on NSE Emerge in May 2018
- We have built our own Cloud Infra and developed our Technology Stack using Open Source, making our Infra among the most affordable in the market
- Customers across various segments

Our Product

- E2E was among the early players in India to offer contract-less computing
- We strive to build a superior Public Cloud with focus on customer experience
- We only focus on essential micro-services critical for customers on cloud
- Self-Service Public Cloud with necessary micro-services has significant entry barrier
- We will continue to remain cost-leaders to be able to address the hugely value conscious SME market in India

OUR BUSINESS MODEL IN CLOUD INFRA

- E2E has agreements with Datacenters for colocation services
- E2E deploys its own/leased servers and other compute infrastructure and configures them to be used as Dedicated or Virtual Servers for Clients
- Clients have the flexibility to increase or decrease their compute requirements and we charge on hourly and monthly basis
- Our own software stack built from ground up based on Open Source
- Constantly improving UI/UX on self service platform

CLOUD INFRA OFFERING

E2E has built its own Cloud Computing infrastructure from the ground up using Open Source Software and custom designed servers to optimize cost, performance and speed of delivery

E2E can quickly deliver on cost effective public cloud solutions on pay as you go model for customers

Based on **Functional Requirement** we provide

Memory Intensive Compute

High-Performance Compute

Storage Intensive Compute

Windows Compute

Based on the Need for Customization we provide both PUBLIC and PRIVATE Cloud

Virtual / Dedicated Compute Nodes

Load Balancers on Cloud

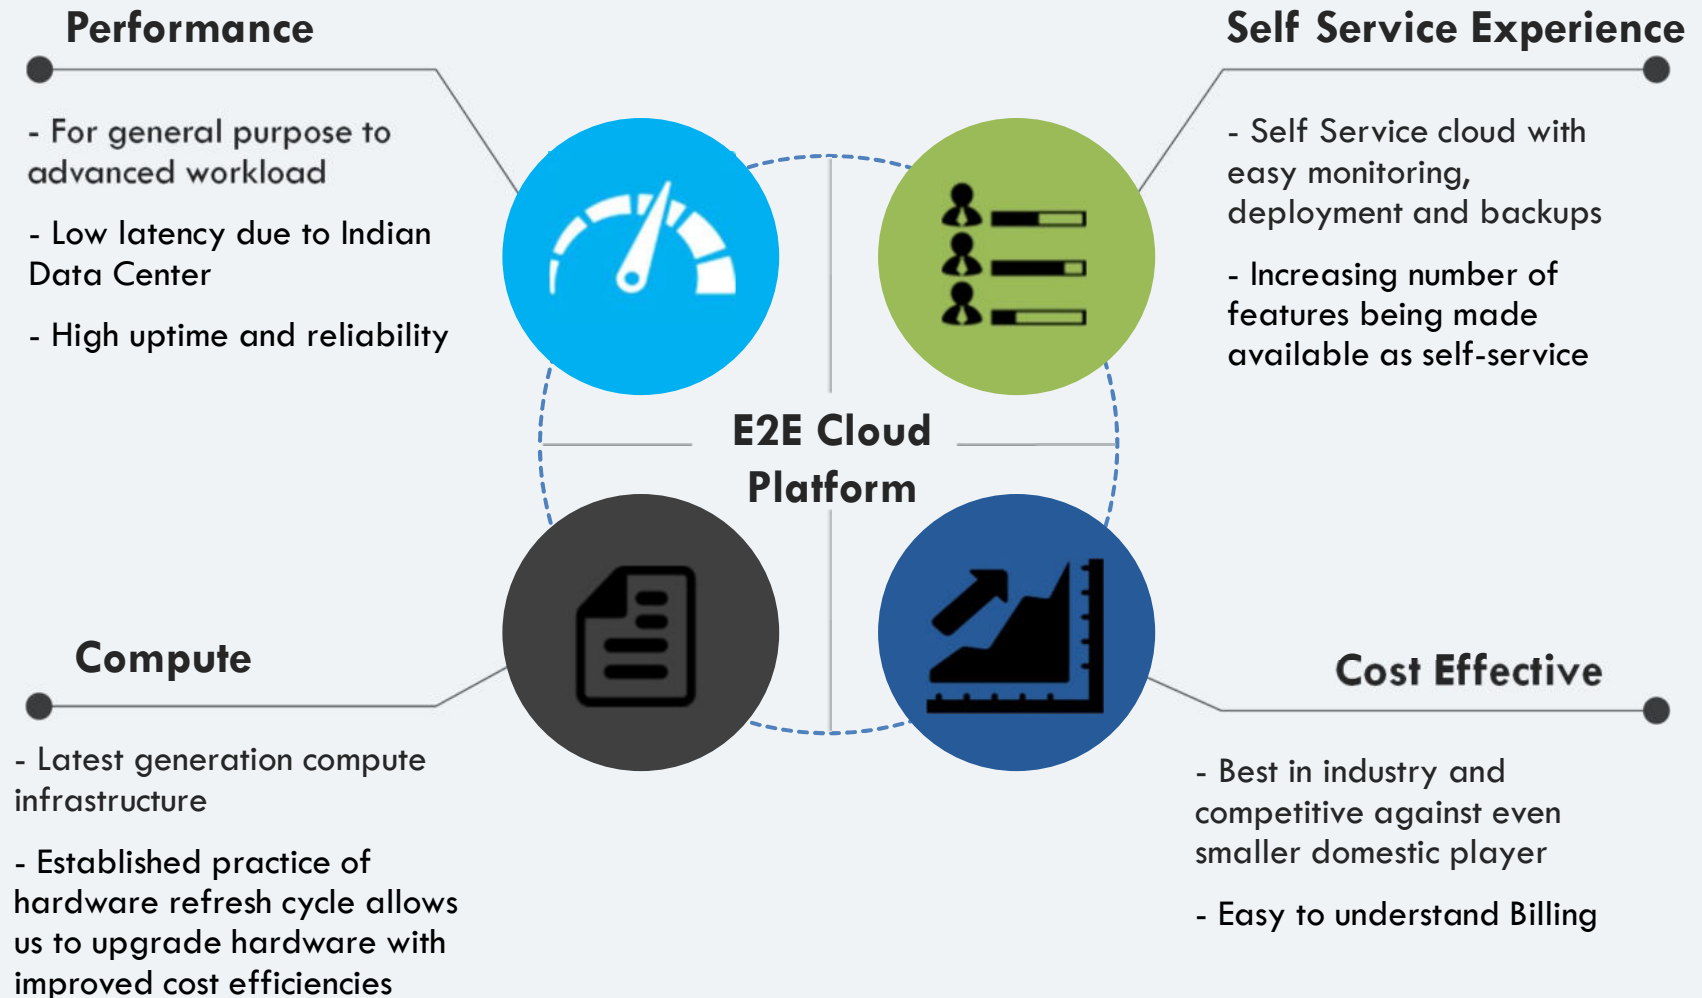

Backups

Appliances ^{New}
Augmenting our offering by adding various Appliances

BENEFITS OF OUR CLOUD INFRA PLATFORM

E2E COMPARISON OF COST VS PEERS

SUSTAINABLE COST ADVANTAGE

	E2E NETWORKS	GLOBAL PLAYERS WITH SERVERS IN INDIA	GLOBAL PLAYERS WITH SERVERS GLOBALLY
POWER	 Low Density Deployment		 Very Cheap Power
BANDWIDTH			
HARDWARE	 Limited number of SKUs		 International Sourcing
SOFTWARE	 Open Source & Own Stacks	 Massive Stack adds to cost	 Massive Stack adds to cost
OVERHEADS	 Lower Fixed Cost	 High Overheads	 High Overheads
PRODUCT FEATURES	Basic and Catching up on most used features	Advanced Features with constant addition	Advanced Features with constant addition
LEARNING CURVE	Flat Learning Curve	Steeper Learning Curve	Stepper Learning Curve

RAPID EVOLUTION IN OUR PUBLIC CLOUD PRODUCT

Significant improvement in Flexibility of usage, Product Offering and Customer Experience in last 1 Year

Scaling up of Development and Service Delivery Team to enable changes further

INTRODUCED INNOVATIVE PRODUCT LIKE SMART DEDICATED SERVERS

Benefit of Public Cloud and Dedicated Servers woven together

Offers (a) Reduced deployment time, (b) Reduces Cost, (c) Simple Administration, (d) Backup options and (e) Pay as you go billing

Available in various OS like Windows, Linux and Control Panels like cPanel, Plesk and Webuza

Dedicated
Hardware

Isolated
Environment

Contractless

Indian Data
Center

Easy Migration
Between Servers

Convenient
Provisioning and
De-provisioning

CLOUD INFRA GROWING IN INDIA AT 40% CAGR

Large Addressable and a very fast growing Industry driven by

Higher Consumption of Data and to accelerate further with adoption of newer technologies like Artificial Intelligence, Machine Learning, IOT

Improvement in Data Connectivity driving acceptability and more so among SMBs

Government Push to go Digital large budget for Bharat Net and push for Digital India Program

Our **focus on SME/MSME** – one of the fastest growing market with 50mn+ SMEs in India

E2E offer deep value to SME given its cost competitiveness, hand-holding, and more application workload centric

Adoption of Cloud to grow given low cost and high availability of internet in India

RECENT CHALLENGES AND OUR APPROACH TO GROWTH

Decline / Loss of Revenue from few key customers has impacted our Revenue in the last 6 months. FY19 revenue likely to decline as against FY18.

Client concentration risk reduced significantly. Expect this to further reduce with our focus on SME/MSME

Disproportionate impact on profitability due to broadly fixed overheads and our continued impetus on hiring for building organization to tap future potential

E2E continued effort to build a superior Public Cloud Product is seeing traction with:

- Significant number of self-service customers added in last few months
- Sales effort seeing momentum with gross new addition of on an average Rs10 lac/month – to accelerate further
- Growth opportunities in Digital Transformation, AI, SME among others

BUSINESS STRATEGY AND FOCUS

Making our product more robust with greater flexibility for usage

*Provide more options on how to use infra including usage for short-term and other specific usage
Various kind of flexibilities like Payment, Commitment Period, Operating System*

Improving Technical Capabilities

*Build capabilities in terms of important micro-services
Development of Infra heavy Appliances relevant to the SME market to drive adoption*

Driving growth

*Focusing on SME and mid-size accounts by building process driven Sales
De-risking revenue by reducing client concentration
Scaling Sales and Technology organization to capitalize on huge market opportunity
Looking at Inorganic opportunities to add to portfolio of clients or product offering*

BUILDING UP THE ORGANIZATION TO DELIVER

**Scaling up the
Organization...**

Increase in Capital post Bonus and IPO

Increase due to reclassification of Capital Creditors and Payments of Salary/other vendors Paid after Sep'18

Increase in Cash & Equivalent post IPO

WELL POSITIONED TO CAPITALIZE ON FUTURE OPPORTUNITIES

1

Large Addressable Market Opportunity in Indian Cloud

- India's Public Cloud Infra Market to grow at ~40% CAGR over the next 2-3 years
- Wide adoption among SME due to high reliability and low cost of data connection

2

Product Company with Tech Focused Team

- E2E product offering stands-out given significant advantage in terms of Technical capabilities
- Stronger product enables us to acquire customer with longer LTV

3

E2E Competes on significant and sustainable Cost Advantages

- E2E is a Low Cost Cloud Infra provider and cater to cost conscious market segment with its cost advantages and speed of execution
- We are seeing consolidation with smaller competitors preferring to partner with us to use our Infra given the cost advantages instead of setting up their own co-located cloud infrastructure

4

Strong Financials & Managing High Growth Rate

- E2E Revenue has grown at CAGR of 63% FY14-FY18, with healthy EBIT & Net Margins
- ROE upwards of 35% for the last few years with healthy Free Cash being generated every year
- Growth is expected to pickup from FY20 onwards with lower customer concentration risk
