

# HALTON FOOD FOR THOUGHT

## Halton Food for Thought & Community Foundation of Halton North - Webathon 2022

CFHN Webathon 2022 will take place on October 1st, 2022 via [Pheedloop](#), a virtual event platform. It will be a hybrid event, combining CFHN's physical presence at Farmers' Markets, at the home of CFHN, and with an online celebration of CFHN along with multiple local participating charities, including Halton Food for Thought.

CFHN will facilitate a series of activities in which charities and their advocates are invited to have some fun and learn about the philanthropic sector in Halton North, while helping CFHN reach the goal of raising much needed support for local charities.

The virtual portion of Webathon 2022 will include 3 hours of programming, and 1 hour of live footage and entertainment from the CFHN office. CFHN will be exhibiting a series of interviews and videos talking about the work of CFHN, local charities, generous sponsors and the importance of these coordinated efforts within the community. Throughout the programming there will be different opportunities to win prizes through draws (done virtually and at the Farmers' Markets), as well as trivia surrounding CFHN and local causes.

Each charity has the opportunity to have some time during Webathon 2022 to promote their cause through shared stories. Viewers will be able to enter and exit the program at their leisure to learn about philanthropy in Halton North.

Webathon 2022 is exciting as its goal is to bring together Halton Hills and Milton's elected officials, representatives of CFHN, many local charities and residents to celebrate community.
