# BEDROOM

*"Bedrooms have become a sanctuary for us as our day-to-day lives have become so full and frantic. With great design, and soft goods such as custom bedding, pillows, and window treatments, we aim to tailor spaces with our clients that welcome you like a hug at the end of a long day."*—Lisa Morris, Centerline Design & Build

## ALL FOR THE LAKE // MARCH 2017

In a lake house renovated by architect Russ Tyson of Whitten Architects, a second-floor landing is also a bunk room with two sleeping berths fitted under the roof's eave. Built-in ash drawers provide storage and keep the space open, and an Angela Adams rug echoes the landscape outside the windows.

**ARCHITECT:** Whitten Architects

**BUILDER:** Douston Construction

**INTERIOR DESIGNER:** Green Gables Designs

**PHOTOGRAPHY:** Jonathan Reece
