

“We create
world class
innovations”

#WeKnowWhy

INC Innovation Center | Munich

Location

Welcome to INC Munich

The INC Munich is located southeast of the city center and the Isar river in the district of Giesing. Due to its proximity to the B2R highway and the Giesing train station, the INC is very easy to reach by public transport or car.

The district is a diverse neighborhood, also called quaint by Munich locals. Besides beer and soccer, the neighborhood is also known for a variety of culture and architecture. It offers buildings from all ages. Including hostel cottages build in the 19th century, as well as buildings from the Middle Ages.

This creates a place whose diversity stimulates creativity and fosters new innovative ideas.

INC Innovation Center | Munich
