

SHORT COURSE

CISSP PREP

(40 HOURS)

SKILL LEVEL: Intermediate, Advanced

PREREQUISITES: Working knowledge in Cybersecurity or Information Assurance

OVERVIEW: This course will prepare you for CISSP certification—one of the most sought-after infosec certs in the industry. The course curriculum will help professionals demonstrate their understanding of cybersecurity strategy and experience with hands-on implementation. You will obtain the advanced understanding and technical skills to design, develop and manage an organization's overall security posture—skills necessary for roles ranging anywhere from Security Analyst to Chief Information Officer. To qualify for the CISSP, candidates must pass the exam and have at least five years of cumulative, paid work experience in two or more of the eight domains of the (ISC)² CISSP Common Body of Knowledge (CBK®).

Note: Short courses are held **remotely on weekends, Sat-Sun from 9 AM-2 PM CT**. Local DFW residents are welcome to attend remote-live classes at our Addison campus. In the unlikely event we do not meet the minimum class size requirement to activate a cohort, the class may be postponed or you may be requested to move to another course date.

JOBS THAT TYPICALLY USE OR REQUIRE THE CISSP:
