

50MM INTERLOCKING SPEED HUMP

Northpac's 50mm Speed Hump is ideal for slow traffic areas such as service stations, schools, parks, shopping centres and can be used as a delineator for traffic lanes.

Features

- 500mm middle sections fit together to span the width of any road
- Black & yellow interlocking modules to minimise movement
- Four built in cats eye reflectors per 500mm module
- Slip resistant surface
- Highly visible modules

Fixing Options

- Speed hump fixing kit [SHFK4] for fixing to concrete surfaces
- M12 x 75mm galvanised screw bolt for fixing to concrete surfaces
- M12 x 200mm asphalt spike for fixing to asphalt/bitumen surfaces over base-course
- Fixings per module, 2 fixings per end cap
- 14mm fastening holes
