

NCR Open Division 7's At Large Application

Revised 3.12.2021

Return No Later than 8:00pm EST - Saturday, April 3rd 2021 (even if regular season hasn't concluded)

The Competition Committees are responsible for determining the subjective At-Large selections for the NCR postseason tournaments. Teams that did not win their league or conference but otherwise met post-season consideration criteria may be eligible to earn an at-large berth.

At-large berths are filled based on a team's record, relative strength of schedule, and other subjective criteria. There is no limit to the number of at-large bids that can be awarded to teams competing in an NCR approved league or conference.

Independent teams, and teams advancing from an NCR approved hybrid conference that otherwise do not meet criteria specified for AQ status in that division, may only receive an At-large selection.

If a team accepts an at-large bid to participate in the National Championship tournament and subsequently fails to participate, or withdraws from the tournament prior to the completion of all of its games, such team shall be ineligible for the National Championship Tournament the next Competitive Cycle.

Open Division Team Eligibility Criteria for an At-Large Selection:

- I. Men - at least three (3) tournaments v eligible opponents, may be from one conference/league or a combination of league/conference and Registered Matches, against at least six (6) different opponents
- II. Women - at least one (1) tournament v eligible opponents, may be from one conference/league or a combination of league/conference and Registered Matches, against at least four (4) different opponents
- III. team must have an overall 'winning' record
