

Dexioprotoocol Staking

DEXIOPROTOCOL

Purpose

Dexioprotocol currently offers two staking contracts found at:

<https://staking.dexioprotocol.com>

This document serves to provide definitions of terms used, navigation guidance of the user interface, and instructions on staking, unstaking, and claiming.

For additional help, please contact by email at support@dexioprotocol.com or live chat support in our [Discord channel](#). Beware of scammers in live chat support.

Make sure you are speaking with a legitimate Dexioprotocol moderator, never give up your seed phrase, and never connect your wallet to suspicious domains.

Definitions

APR: Annual Percentage Rate represents the rewards generated if your tokens were staked for one year, not to be confused for the rewards over the time period you select.

DEXI: The ticker for the Dexioprotocol token.

Claiming: The process by which you collect the rewards generated without unstaking your tokens.

Staking: The process of locking your tokens up for a period of time in order to obtain rewards. Tokens cannot be unstaked before the Unlock Date has been met.

Time Period: The number of days that your tokens will be locked.

Unlock Date: The date and time that your tokens can be unstaked and returned to your wallet and rewards can be claimed.

Unstaking: The process of returning your unlocked tokens back to your wallet and collected the rewards generated.

USDC: The ticker for the USD Coin, a widely-accepted stablecoin pegged to the US Dollar.

Navigational Tour of the Staking Platform

The screenshot shows the DEXI Protocol Staking interface. At the top left is the logo and text "DEXI PROTOCOL STAKING". At the top right is a "Connect wallet" button. Below this are four summary cards: "Total Currently Staked -- USDC", "Lifetime Awards \$-- in DEXI", "APR -- %", and "Lifetime Stakers --". The main area has tabs for "Staking", "Unstaking", and "Claiming", with "Staking" selected. It shows "No funds staked" and a "Switch to DEXI" button. Below are fields for "Staked Balance", "Available Balance", "Time Period" (set to "30 Days Lock"), "APR", and "Rewards" (0 USD in DEXI). At the bottom is an "Approve USDC" button. Five callout boxes provide instructions: 1. "Toggle between USDC and DEXI staking here." points to the "Switch to DEXI" button. 2. "Enter the amount of DEXI to stake here." points to the input field. 3. "Choose your time period here: 30, 60, or 180 days. The stats above will update based on time period selected." points to the "30 Days Lock" dropdown. 4. "Approve or Stake here. If this is your first time interacting with the contract for any time period, you will first need to 'Approve' the call in your wallet, and then 'Stake' in the second call." points to the "Approve USDC" button. 5. "Connect your wallet using MetaMask (browser extension) or through Wallet Connect." points to the "Connect wallet" button.

Connect wallet

Connect your wallet using MetaMask (browser extension) or through Wallet Connect.

Total Currently Staked
-- USDC

Lifetime Awards
\$-- in DEXI

APR
-- %

Lifetime Stakers
--

Toggle between USDC and DEXI staking here.

Enter the amount of DEXI to stake here.

Choose your time period here: 30, 60, or 180 days. The stats above will update based on time period selected.

Approve or Stake here. If this is your first time interacting with the contract for any time period, you will first need to "Approve" the call in your wallet, and then "Stake" in the second call.

Switch to DEXI

Staking | Unstaking | Claiming

No funds staked

Staked Balance -- USDC

Available Balance -- USDC

Time Period 30 Days Lock

APR -- %

Rewards 0 USD in DEXI

Approve USDC

Staking

After connecting your wallet, choose the time period you want to stake your assets, either USDC or DEXI.

- Staked Balance: Shows the balance already staked for that time period. The unlock time for the staked balance appears at the top.
- Available Balance: Shows the unstaked balance in your wallet.
- Adding new assets to your staked balance RESTARTS the timer and resets your unlock date for the new entire balance.
- You will need \$MATIC for the gas fees to complete the Approve and Stake contract calls, consistent with any other transaction on Polygon.

Unstaking

When the Unlock Time has been met for each period, you can Unstake the balance locked for that time period after connecting your wallet. The Unlock Time is shown at the top.

- Unstaking the balance returns the tokens to your wallet PLUS the rewards earned for that period.
- The rewards earned will be shown in the “Rewards” line at the bottom.
- You cannot Unstake the balance until the Unlock Time has been met.
- You will need \$MATIC to complete unstaking call, consistent with all other transactions on Polygon.

Claiming

When the Unlock Time has been met for each period, you can Claim the Rewards earned during that period without Unstaking the token balance. The Unlock Time is shown at the top.

- Claiming Rewards does not unstake your token balance. Your tokens will continue to earn the stated APR for the time period but are unlocked and can be unstaked at any time.
- The Rewards to be claimed are shown on the “Rewards” line at the bottom.
- You cannot Claim until the Unlock Time has been met.
- You will need \$MATIC to complete Claim call, consistent with all other transactions on Polygon.
