"What Happened to Sophie Wilder is an imperishable gift of storytelling, a novel built sturdily of wisdom, beauty, and love. Christopher R. Beha writes with Jamesian sophistication about the enduring enigma of our inner lives, and the result is a title character who will dwell in you always."

—WILLIAM GERALDI, author of *Busy Ministers*

Charlie Blakeman has just published his first novel, to almost no acclaim. He's living on New York's Washington Square, struggling with his follow-up and floundering within his pseudointellectual coterie, when his college love, Sophie Wilder, returns to his life. Sophie is also struggling, though Charlie isn't sure why—they've barely spoken after falling out a decade before. Now Sophie begins to tell Charlie the story of her life since then, particularly the days she spent taking care of a dying man with his own terrible past and the difficult decision he forced her to make. When she disappears once again, Charlie sets out to discover what happened to Sophie Wilder. Christopher Beha's debut novel explores faith, love, friendship, and, ultimately, the redemptive power of storytelling.

A vertical column of nine stylized, rounded, and slightly irregular shapes, resembling stacked stones or eggs, arranged in a zigzag pattern. The shapes are outlined in black and filled with a light gray color. They are arranged in a way that creates a sense of depth and movement, with some shapes appearing to overlap or be partially hidden by others.
